Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
Lot Number	Average test result (g/210L)
BOT Technician Name and Signature	

BRT Form 6.0

In accordance with BRT – 2.2.0, *Maintenance*, the above referenced simulator solution is suitable for use as an external reference in maintenance of the Intoxilyzer 8000.

Certificate of Analysis – Wet Bath

Date of Analysis	Labelled target value (g/210L)
