2010 Hospital Based Outpatient Surgery Data Manual – V.1 - Addendum

Cancelled Procedures

Encounters for cancelled procedures are no longer required to be reported. Exclude records with no procedure code and with a diagnosis code of V64.

Dental Procedures

The HCPCS Dental codes will be allowed to be used on dental procedures performed in the hospital. The Dxxxx codes should only be used when a dental procedure is performed. X-rays, lab test, examinations and orthodontia are examples of when the codes should not be used for reporting in the data submitted

Patient Address

Submission of the Patient Address is required. The field should indicate the physical address of the patient residence whenever one is available. Specifications to indicate homeless, out-of-country and unknown addresses are as follows

Homeless patients

Street Address: "Homeless"

City: City of Hospital. e.g. Oklahoma City, Lawton etc.

State: "ZZ"

Postal Code: "99990"

Out-of-Country

Street Address: Country of origin e.g. Mexico, Canada, etc.

City:"Out of Country"

State: "XX"

Postal Code: "99999"

Patients with Unknown addresses

Street Address: "Unknown"

City: City of Hospital. e.g. Oklahoma City, Lawton etc.

State: "ZZ"

Postal Code: "99990"

Physician Identifiers

Use OTH000 if the National Provider Identifier (NPI) of the physician is not yet available or is being processed by CMS

Social Security Number

Newborns whose mother's SSN is unknown use 200100 for the single newborn, for multiple births use 200101 for Baby A, 200102 for Baby B etc.

Selection Criteria for Outpatient Surgery Records

Add code G0269 to the selection criteria for outpatient surgery records.
