# Take Charge!

Take Charge! is a statewide program which provides eligible Oklahoma women with breast and cervical cancer screening.

Take Charge! performs the following:
*Clinical Breast Exams
*Mammograms
*Pap Tests
*Pelvic Examinations
*Diagnostic Testing (if results are abnormal)
*Treatment Referrals
*Patient Navigation

Take Charge! has screened 63,247 women since initial funding in 1995.

Take Charge! is funded by a grant from the Centers for Disease Control and Prevention (CDC), National Breast and Cervical Cancer Early Detection Program, State Funding and the Breast and Cervical Cancer (BCC) Revolving Fund.

Oklahoma State Department of Health

## Program at a Glance

**FY 12 (07/01/2011 - 06/30/2012) All Funding Sources**

| | |

| >1 Race | 0.3% | 5.7% |

*Race/Ethnicity columns total >100% since Hispanics may be of any race, so are included in applicable race categories.*

## About the National Breast and Cervical Cancer Early Detection Program

The Centers for Disease Control and Prevention's National Breast and Cervical Cancer Early Detection Program (NBCCEDP) provides consumer education, free and low-cost breast and cervical cancer screenings, and diagnostic services to low-income, uninsured, and underserved women. The NBCCEDP provides funding to all 50 states, the District of Columbia, 5 U.S. territories, and 12 American Indian/Alaska Native tribes or tribal organizations. Since 1991, NBCCEDP grantee programs have served more than 3.7 million women, and provided more than 9.2 million breast and cervical cancer screening examinations.

Federal guidelines establish eligibility to uninsured and underinsured women at or below 250% of federal poverty level, ages 18–64 for cervical cancer screening and 40–64 for breast cancer screening.

Take Charge! eligibility guidelines are tailored specific to Oklahoma. For details see the web site.

Report prepared 1/2013

## Screening History of Women Served

| Screening History | Program %** |
|---|---|
| Never Had a Mammogram | 47.1% |
| Never Had a Pap Test | 43.8% |

## Number of Screening Procedures Performed: FY 12

| | |
|---|---|
| Clinical Breast Exams | 4,497 |
| Screening Mammograms | 3,581 |
| Pap Test | 3,502 |

## Total Diagnoses: FY 12 (7/1/2011 - 06/30/2012)

| | |
|---|---|
| **Breast Cancer** | |
| Non-invasive Cancer | + |
| Invasive Cancer | + |
| **Cervical Dysplasia and Invasive Cervical Cancer** | |
| Mild Dysplasia/CIN 1 | 99 |
| Moderate Dysplasia/CIN 2, 3 | 28 |
| Severe Dysplasia/CIS, AIS | 18 |
| Invasive Cancer | 0 |

*+ Data suppressed due to small number of cases. Overall, during FY12 fifteen breast cancers were diagnosed.*

** Columns total 100%*

*** This percentage represents the number of women who had never been screened at the time of enrollment.*

*Please note: the data contained in this report is the best representation of the data available at the time of report. The user acknowledges and accepts the data is dynamic and in a constant state of maintenance.*
