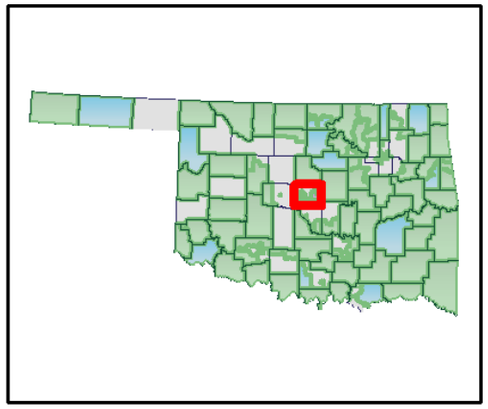
Oklahoma County Medically Underserved Areas/Populations



Legend

- Medically Underserved Areas (MUA)
- Governor's Designation (MUA/MUP)
- Medically Underserved Population

Notes: A MUA/P designation identifies areas or populations with a shortage of health care services. Designation is based on the explanation as to why the area in question is rational and the documentation of four factors: health care provider-to-population ratio, infant mortality rate, percentage of population below 100% of the federal poverty level and the percentage of the population aged 65 and over.
