Labor Force Information for Affirmative Action Programs

The data in this publication reflect the most current U.S. Census data and pertinent Oklahoma labor force information needed to formulate affirmative action programs for the state, metropolitan statistical areas (MSAs) and all 77 Oklahoma counties.

The information contained herein utilizes data from the U. S. Bureau of the Census. The tables furnished in this document were prepared in accordance with the procedural requirements of the Office of Federal Contract Compliance Programs (OFCCP) within the Employment Standards Administration of the U. S. Department of Labor (41 CFR 60-2.10 and 2.11). The OESC has designed this publication to assist employers in meeting federal and state requirements of affirmative action programs by providing population and labor force information. For questions regarding population information, please contact the U. S. Bureau of the Census.

Population by Minority Status / Gender

Methodology

- Data are based on a sample and are subject to sampling variability. The degree of uncertainty for an estimate arising from sampling variability is represented through the use of a margin of error. The value shown here is within a 90 percent margin of error. The margin of error can be interpreted roughly as providing a 90 percent probability that the interval defined by the estimate minus the margin of error and the estimate plus the margin of error (the lower and upper confidence bounds) contains the true value. In addition to sampling variability, the ACS estimates are subject to nonsampling error (for a discussion of nonsampling variability, see Accuracy of the Data). The effect of nonsampling error is not represented in these tables.
- U.S. citizens include those who were born a U.S. citizen and those who naturalized. Respondents who indicated that they were born in the United States, Puerto Rico, a U.S. Island Area (such as Guam), or abroad of American (U.S. citizen) parent(s) are considered U.S. citizens at birth. Foreign-born people who indicated that they were U.S. citizens through naturalization also are considered U.S. citizens.
- The U.S. Census Bureau collects race data in accordance with guidelines provided by the U.S. Office of Management and Budget (OMB). Except for the total, all race and ethnicity categories are mutually exclusive. "Black" refers to Black or African American; "AIAN" refers to American Indian and Alaska Native; and "NHPI" refers to Native Hawaiian and Other Pacific Islander. The reference to "Hawaii only" indicates that these columns are only tabulated for areas in the state of Hawaii. "Balance of Not Hispanic or Latino" includes the balance of non-Hispanic individuals who reported multiple races or reported Some Other Race alone. For more information on race and Hispanic origin, see the Subject Definitions at **http://www.census.gov/acs/www/data_documentation/documentation_main/.**
- Race and Hispanic origin are separate concepts on the American Community Survey. "White alone Hispanic or Latino" includes respondents who reported Hispanic or Latino origin and reported race as "White" and no other race. "All other Hispanic or Latino" includes respondents who reported Hispanic or Latino origin and reported a race other than "White," either alone or in combination. To get a total for "Hispanic or Latino," add the two columns for "White alone Hispanic or Latino" and "All other Hispanic or Latino."

- Occupation codes are 4-digit codes and are based on Standard Occupational Classification 2010.

Oklahoma Statewide

Annual Estimates of the Resident Population by Sex, Race, and Hispanic Origin for Oklahoma Counties: July 1, 2014

Equal Employment Opportunity

The EEO Tabulation 2006-2010 (5-year ACS data) is available through American FactFinder (AFF) (factfinder2.census.gov) beginning November 29, 2012. This 107-table tabulation, which highlights the diversity of the labor force, is based on the American Community Survey (ACS) 2006-2010 five-year data (www.census.gov/acs). The Census Bureau produces this tabulation for four sponsoring Federal agencies: Equal Employment Opportunity Commission (EEOC), Department of Justice (DOJ), the Office of Federal Contract Compliance Programs (OFCCP) at the Department of Labor (DOL) and Office of Personnel Management (OPM). The EEO Tabulation serves as the primary external benchmark for comparing the race, ethnicity, and sex composition of an organization's internal workforce, and the analogous external labor market, within a specified geography and job category.

The EEO Tabulation 2006-2010 (5-year ACS data) contains information similar to comparable tabulations from the 1970, 1980, 1990 and 2000 censuses. Characteristics include sex, race, and Hispanic origin, crosstabulated by citizenship, occupation, industry, age, educational attainment, earnings, and unemployment status. The 2010 Census occupation categories used in this file are based on the 2010 Standard Occupational Classification (SOC) categories. Tables are tabulated for at least one of three geographic types: residence, worksite, and residence-to-worksite commuting flows. These are tabulated for one or more of the following geographic summary levels: U.S. Total, all states, the District of Columbia, and Puerto Rico, metro and micro areas, counties, places, and EEO county sets. All tables also include estimates, percentages, and margins of error.

To access the EEO Tabulation 2006-2010 (5-year ACS data) tables go to http://www.census.gov/people/eeotabulation/data/eeotables20062010.html.

To access the Disability Employment Tabulation 2008-2010 (3-year ACS data) go to http://www.census.gov/people/disabilityemptab/ or go directly to American Factfinder.
