Troy,

Here is the latest shape file of City of Sapulpa Corporate Limits.

What you all have of ours, map wise, continues to show the railroad property, that is basically in the center of town, as OUT. It is not out. I am attaching Ordinances 1916 and 1917 that confirm this. I will also forward you an email I already sent to Dave Francis at the Oklahoma Tax Commission, which I forgot to copy you on, to let you know what I told him too. It's just one of those areas that was "assumed" to have always been OUT of the City for many, many years and I tried to get the City to fix it when I worked at the Assessor's office some years back. Now I'm at the City trying to get this all resolved once and for all.

Let me know if you need anything else.

Thank you,

Carl Prescott
