ODAFF has provided you with two different Nutrient Management Plan (NMP) formats from which to choose. One is a draft EPA NMP Template and the other is an ODAFF NMP Checklist. Both documents currently satisfy EPA requirements for developing an NMP. The ODAFF NMP Checklist will handily convert the elements of an existing Oklahoma Pollution Prevention Plan or Animal Waste Management Plan to an NMP, with the addition of certain conditions. Instructions for the ODAFF NMP checklist is also available. Please note that you will need to use a Certified Nutrient Management Specialist to assist you in completing your NMP.
