

WHAT'S THE DIFFERENCE?

This lamp, using a 13 watt CFL bulb, consumes around two-thirds less energy than a 60 watt incandescent bulb while producing the same amount of light.

EARTH DAY CFL EXCHANGE

This lamp, using a 60 watt incandescent bulb, produces 75% more heat, wastes 47 more watts, and adds unnecessary CO₂ emissions to the air.

On April 22, 2009, Earth Day, a DCS Facilities Management representative will offer to trade your energy-wasting, incandescent bulbs for environmentally-friendly, energy efficient, Compact Fluorescent bulbs.

Please choose a CFL for a cleaner environment.
