580:15-6-21. Information Technology (IT)

(a) **Procurement:**

- (1) To ensure accessibility of information technology for individuals with disabilities and compliance with Title 62, Section 41.5t, procurement of information technology shall be subject to the Oklahoma Information Technology Accessibility Standards prescribed by the Office of State Finance and maintained by the OSF Information Services Division. These standards apply to all information technology purchased after the effective date of these rules and standards, providing the solicitation process was not initiated prior to the effective date.
- (2) When developing and procuring information technology products (either directly or through administration of contracts or grants) a product, each state agency, as defined in Title 62, Section 41.5t.1., shall ensure that the products comply with all applicable standards, unless an undue burden would be imposed on the agency.
- (3) When procuring a product, the accessibility determination will be conducted as part of the evaluation. Accessibility will be considered among the general, technical and functional requirements of the procurement specifications. At a minimum, it will be done through review of vendor provided information submitted in the form of a Voluntary Product Accessibility Template (VPAT) or comparable document with judgments made regarding degree of conformance to the access standards. The relative accessibility weighing may be adjusted for due cause based on the specific procurement. Agencies cannot claim a product, as a whole is not commercially available because no product in the marketplace meets all the standards.

(b) **Contract clauses:**(1) All solicitations and contracts for information technology shall include a clause, prescribed by the Director pursuant to Title 74, Section 85.7d, ensuring compliance with applicable IT Accessibility Standards, which are in effect on the date of issuance of said solicitation or contract.

(2) The information technology clause(s) and IT Accessibility Standards shall be made available at the principle office of the DCS Central Purchasing Division and published on the DCS website.

(3) A supplier shall provide a written certification, signed by an authorized officer of the supplier, that the product or service complies with applicable IT standards required by such contracts or solicitations prior to the expenditure of state funds. An agency may also utilize a VPAT published on a supplier's primary website. A VPAT obtained from a supplier website shall be good for a one-year period.

(c) Exceptions:

(1) If a state agency determines that compliance with any provisions of the IT Accessibility Standards imposes an undue burden or qualifies as an exception pursuant to this section, the agency shall submit a written explanation of why, and to what extent, such undue burden or exception exists, with its requisition.

(A) The explanation shall be submitted on a form prescribed by the Director and signed by the chief administrative officer of the agency or an employee of the agency to which responsibility for Section 508 compliance has been delegated..

(B) The explanation shall be retained with the requisition file.

(2) Unless an exception applies, acquisitions of IT supplies and services must meet the applicable accessibility standards. Exceptions to the Standards include:

(A) IT operated by state departments or agencies, the function, operation or use of which involves intelligence activities, crypto logic activities related to public safety, command and control of law enforcement, equipment that is an integral part of a weapon or weapons system or systems which are critical to the direct fulfillment of public safety or intelligence missions. Systems which are critical to the direct fulfillment of public safety or intelligence missions do not include a system that is to be used for routine administrative and business applications (including payroll, finance, logistics and personnel management applications);

(B) IT acquired by a contractor or grantee incidental to a contract or grant, provided the technology does not become State property upon the completion of the contract;

(C) IT located in spaces frequented only by service personnel for maintenance, repair or occasional monitoring of equipment;

(D) IT requiring a fundamental alteration in the nature of a product or its components;

(E) Except as required to comply with the Standards, state departments and agencies are not required to install specific accessibility-related software or attach an assistive technology device to information technology products unless required by other applicable State or Federal laws;

(F) When state agencies provide public access to information or data through information technology, agencies are not required to make products owned by the agency available for access and use by individuals with disabilities at a location other than where the information technology is provided to the public, or to purchase products for access and use by individuals with disabilities at a location other than where the information technology is provided to the public;

(G) IT that would impose an undue burden on the agency.

(d) Documentation of exceptions. If an agency determines that compliance with any provision of the IT Accessibility Standards meets the criteria of a general exception, the agency shall maintain documentation in the agency acquisition file to support the procurement, which

explains why, and to what extent, compliance with each such provision meets an exception or creates an undue burden on the agency. Agencies are encouraged but not required to maintain documentation for commercial off the shelf acquisitions of \$2,500.00 or less unless the purchase is part of an existing contract or affects a larger EIT system where accessibility is critical.

(e) **Alternative means of access.** When compliance with these standards imposes an undue burden, agencies shall provide individuals with disabilities the information and data involved by an alternative means of access that allows an individual to use the information and data in accordance with other applicable State and Federal laws such as Title I and Title II of the Americans with Disabilities Act and Section 504 of the Rehabilitation Act.
