Ground Control Instructor Level 1 \$375 24 hours

This law enforcement-based Ground Control Instructor course focuses on law enforcement grappling holds and techniques that work for police in the field. You cannot be in law enforcement during our current climate and not have skills for the ground encounter. We guarantee that you will be on the ground at some point in your law enforcement career, and you need to have a blueprint to control the suspect when the fight goes into that realm.

This course focuses on ground control techniques that will allow police officers to control a suspect until backup arrives, which includes control techniques that allow the officers to exhaust the suspect for handcuffing. The skills learned in this course will utilize body weight and compression learned through Brazilian Jiu-Jitsu but focuses on what we deal with in law enforcement. This course is not taught by a civilian trainer that has never put on a police uniform but is rather taught by veteran police officers that understand policy and what you deal with in the field. You'll learn from them our award-winning teaching methods during this course that allows you to become a better instructor.

**Sept. 18th - 20th, 2024
Stillwater, OK**

Training Location:
520 Expo Circle
Stillwater, Oklahoma 74074
