Computers for the Disabled

AMBUCS Share4Life Komputers (ASK) is a community service project of the Sooner chapter of National AMBUCS, Inc. The goal of **ASK** is to give computers to adults and children with disabilities so that their quality of life may be enhanced. We also donate to classrooms serving special kids. **We have donated 6000 computers to date.**

Brandon receives 1000th computer

This is consistent with the AMBUCS motto **"Creating mobility and independence for people with disabilities."** AMBUCS members and friends refurbish and repair donated computers, then load them with software appropriate for the individual receiving the computer. These computers are then given to the recipients free of charge.

Any disabled individual of any age may request a computer by completing an application form that we provide. Call 405-360-1521 to leave a message and receive an application. Each application received is evaluated according to disability and need and placed on a waiting list. Recipients need not be from the local area. If the recipient is from

outside the area, he/she is responsible for having the equipment picked up in Norman.

We are constantly looking for donations of computers, and accessories. We will accept any Pentium-level system, mice, keyboards, VGA or SVGA monitors,

power cords, hard disk drives, CD-ROM drives, motherboards, memory chips, software with licenses, etc. **We can't use Apple or Macintosh systems or black and white monitors.**

AMBUCS is a recognized charity under Internal Revenue Service 501(c)(3) regulations, and we will provide a tax receipt for donations on request.

Donations may be brought to our location on Friday or Saturday between the hours of 1 and 3:30 pm. 2012 Research Park Blvd, Norman, OK, near Flood & Rock Creek.
