

# **Steroid-Induced OSTEOPOROSIS STUDY**

**Are you concerned about osteoporosis  
(thin, weak bones) due to being on  
extended cortisone treatment?**

**We are seeking men and women age 21 or older to volunteer for  
a research study of an investigational drug for osteoporosis**

**If you have been taking  
cortisone or a cortisone-like treatment such as prednisone for at  
least the past 3 months, you may qualify.**

**If accepted into this study you will receive at no cost:**

<b>Study-Related Physical Exams</b>	<b>Bone Density Scans (BMD)</b>
<b>Lab Tests</b>	<b>Study Drug</b>
<b>Modest compensation for time and travel</b>	

**Please call today for more information: 405-552-9492
