ABOUT THIS TRAINING:

This workshop describes the complex mother-daughter incestuous relationship—the subtle, yet intentional violations of normal mother-child boundaries, covert and overt abuse and the psychological manipulations used to silence victims. Attendees will learn ways to include mothers as potential perpetrators in prevention programs and in sexual abuse investigations. Six key therapeutic issues for recovery will be discussed. The program will conclude with a discussion of the shared dynamics and also the differences between mother-daughter and mother-son incest. The presenter is both an experienced counselor and a resilient survivor of maternal sexual abuse.

PRESENTERS:

Julie A Brand, M.S. holds a Master’s degree in Counseling and enjoyed a distinguished 25-year career as a school counselor. Now she uses her dual perspective as a counselor and as a survivor of maternal incest to write and to speak about mother-daughter sexual abuse.

AUDIENCE:

This training is appropriate for child welfare, law enforcement, district attorneys, judges, medical professionals, public health nurses, mental health and child abuse prevention professionals.

REGISTRATION:
