## TEST CONTENT AND ADMINISTRATION

The examination consists of objective multiple-choice questions covering knowledge essential to the professional practice of marital and family therapy. Each form of the examination contains 200 items and is constructed according to the test specifications. Each item has four alternative answers, only one of which is correct. Candidates are allowed four hours to complete the examination.

The reported score equals the total number of correct responses; there is no additional penalty for incorrect answers. It is to the candidate's advantage to answer each item even when uncertain of the correct response. The candidate should choose the single best answer to each item. No credit is given for items in which more than one response is selected. Sample items similar to those found on the examination are included at the end of this brochure.

The examination is administered through Prometric Thomson Learning™ centers and scored by PES, which reports the scores and relevant normative data to the administering boards.
