

# REPORTABLE PATHOGENS IN OKLAHOMA

The following organisms are to be reported to the OSDH by any laboratory personnel by telephone or PHIDDO immediately upon suspicion, diagnosis, or positive test:

|  |   |   |
|--|---|---|
| <i>Bacillus anthracis</i><br>Bioterrorism - suspected organism | Hepatitis A virus (anti-HAV IgM+)<br>Hepatitis B virus during pregnancy<br>(HBsAg+) | Rabies virus<br>Rubeola virus (Measles) |
| <i>Clostridium botulinum</i>                                   | <i>Neisseria meningitidis</i> (sterile site only)                                   | <i>Salmonella</i> Typhi                 |
| <i>Corynebacterium diphtheriae</i>                             | Outbreaks of apparent infectious organism   | Variola virus (Smallpox)                |
| <i>Francisella tularensis</i>                                  | Poliovirus  | Viral hemorrhagic fever                 |
| <i>Haemophilus influenzae</i> (sterile site only)              |   | <i>Yersinia pestis</i>                  |

The following organisms are to be reported to the OSDH within one business day:

|  |  |
|--|--|
| Acid Fast Bacillus (AFB) positive smear  | Human Immunodeficiency Virus (HIV) infection                         |
| Arboviral infections   | <i>Legionella pneumophila</i>  |
| <i>Bordetella pertussis</i>  | <i>Leptospira interrogans</i>  |
| <i>Borrelia burgdorferi</i> (EIA+ confirmed by western blot)                                   | <i>Listeria monocytogenes</i>  |
| <i>Brucella</i> spp.   | Mumps virus  |
| <i>Campylobacter</i> spp.  | <i>Mycobacterium leprae</i>  |
| <i>Chlamydia psittaci</i>  | <i>Mycobacterium tuberculosis</i>                                    |
| <i>Clostridium tetani</i>  | <i>Plasmodium</i> spp.   |
| <i>Cryptosporidium parvum</i>  | <i>Rickettsia rickettsii</i>   |
| <i>Cyclospora cayetanensis</i>   | Rubella virus  |
| Dengue virus   | <i>Salmonella</i> spp.   |
| <i>Ehrlichia</i> spp.  | <i>Shigella</i> spp.   |
| <i>Escherichia coli</i> O157, O157:H7 or a shiga-like toxin<br>producing <i>E. coli</i> (EHEC) | <i>Staphylococcus aureus</i> (VISA or VRSA)                          |
| <i>Giardia lamblia</i>   | <i>Streptococcus</i> , group A (sterile site only)                   |
| Hantavirus   | <i>Streptococcus pneumoniae</i> (sterile site only) children <5 yrs. |
| Hepatitis B virus (HBsAg+, anti-HBc IgM+, HBeAg+, and/or<br>HBV DNA+) <sup>1</sup>             | <i>Treponema pallidum</i>  |
| Hepatitis C virus (confirmed by RIBA, NAT, HCV, RNA or s/co) <sup>1</sup>                      | <i>Trichinella spiralis</i>  |
| Hepatitis virus, acute unspecified   | Unusual or uncommon pathogens  |
|  | <i>Vibrio</i> spp. infections including cholera                      |
|  | Yellow fever   |

<sup>1</sup> with entire Hepatitis panel results

The following organisms / test results are to be reported to the OSDH within one month:

|                                       |                              |                |
|---------------------------------------|------------------------------|----------------|
| CD4 cell count <500 with cell count % | Creutzfeldt-Jakob disease    | HIV viral load |
| <i>Chlamydia trachomatis</i>          | <i>Neisseria gonorrhoeae</i> |                |

Isolates of the following organisms must be sent to the OSDH Public Health Laboratory: P.O. Box 24106 OKC, OK 73214

|   |   |
|---|---|
| <i>Bacillus anthracis</i>   | <i>Mycobacterium tuberculosis</i>                   |
| <i>Brucella</i> spp.  | <i>N. meningitidis</i> (sterile site isolates only) |
| <i>Campylobacter</i> spp.   | <i>Plasmodium</i> spp.                              |
| <i>Escherichia coli</i> O157, O157:H7, or a shiga-like toxin producing<br><i>E. coli</i> (EHEC) | <i>Salmonella</i> spp.                              |
| <i>Francisella tularensis</i>   | <i>Shigella</i> spp.                                |
| <i>H. influenzae</i> (sterile site isolates only)   | <i>Staphylococcus aureus</i> (VISA or VRSA)         |
| HIV   | <i>Vibrio</i> spp.                                  |
| <i>Listeria</i> spp. (sterile site isolates only)   | <i>Yersinia</i> spp.                                |

HIV/STD Service
