A Lil' Bit About Us….

The Community Health Improvement Project (CHIP) acts as a resource council to communicate what efforts are going on in Bristow.

CHIP's projects throughout the years are continuing. The Wildflower Run gets bigger and better every hear. The free clinic adds on services. Tobacco Prevention made strides this last year with Bristow schools adding the 24/7 policy.

Bristow Schools hosted *Game On* at their high school stadium. The project used CATCH curriculum and the students spent hours playing physical fitness games and learned about nutrition. They had healthy snacks including cheese and granola bars. The students also walked for diabetes awareness.

Key Activities

- Free Clinic
- Wildflower Run
- Trails
- After School program
- Habitat for Humanity
- 24/7 Bristow Schools Tobacco policy
