# Priorities:

Partnership Development

Access to health care/FQHC

Community mobilization

## Major Outcomes:

Partnership development

Community by-in and support

Initial community needs assessment

## About Us….

A small group of dedicated citizens in Hughes County got together to discuss the needs of their community. Out of that group came a hard working planning committee for a comprehensive, county-wide coalition. In addition to taking the first steps in mobilizing a community to take control of their health, they continually pulled in additional partners and support.

They kicked off their local Turning Point Initiative in a county where people were aware, supportive, and ready to act! From local community members to State level policy makers, Hughes County Turning Point is well on its way to improving the health and well-being of its citizens.
