This publication, issued by the Oklahoma Turning Point Initiative of the Oklahoma State Department of Health, was authorized by Dr. Mike Crutcher, MD, MPH, FACPM, Commissioner of Health and Cabinet Secretary of Health. 350 copies were printed in November 2008 by the Oklahoma State Department of Health at a cost of \$406. Copies have been deposited with the Publications Clearinghouse of the Oklahoma Department of Libraries.

Turning Point continues to transform health in Oklahoma. Growing from just 3 partnerships in 1998, Turning Point now has affiliations with 64 partnerships all across the state. The work these community health improvement partnerships have done and the changes they have accomplished are truly extraordinary. Success range from the establishment of new community health centers to improved nutrition in schools; to whole communities exercising on newly developed trails, Turning Point is helping to improve the health status of Oklahomans.

All of this is possible only because of the dedication and commitment of local partners. We thank you and look forward to many more years of collaborative efforts as we all work toward *Building Healthy Communities through Partnerships*.
