**Thank you for your order!**

The Oklahoma Commission on Marginally Producing Oil & Gas Wells (MWC) was created by the Oklahoma Legislature in 1992 with the following mandates:

- To define and identify appropriate categories that may be used to characterize marginally producing oil and gas wells
- To research and collect information on the number, location and operational conditions of marginally producing oil and gas wells in the State of Oklahoma
- To identify and evaluate the economic and operational factors that may extend the life of marginally producing oil and gas wells
- To propose legislative, regulatory and operational remedies that will extend the life of marginally producing oil and gas wells
- To collect data and make available to the public any information on the contributions of marginally producing oil and gas wells to the local economies of the State of Oklahoma
- To interact with national and regional organizations to ensure recognition of the importance of marginally producing oil and gas wells to the current and future domestic production of oil and gas
- To make an annual report to the Governor, the President Pro Tempore of the Senate and the Speaker of the house of Representatives on those methodologies and procedures that may aid in preserving the life of marginally producing oil and gas wells
- To investigate any additional issues that may have any effect on the preservation on marginally producing oil and gas wells
- To promulgate rules to implement the provisions of this act

**The Oklahoma  
Commission on  
Marginally Producing  
Oil & Gas Wells**

**Publication  
Order Form**

The Marginal Well Commission offers a variety of publications to producers to continue or increase the production of marginally producing oil and gas wells. The topics include information on technology, state and federal rules and regulations, basic field safety and operations and much more.

Make your selections and return to the Marginal Well Commission and your order will be shipped, along with invoice or receipt, within 10-14 business days

### Workbooks

(\$15.00 unless otherwise stated)

- Advanced Plunger Lift
- Asphaltene & Paraffin Problems
- Coiled Tubing Applications & Slim Hole Completions
- Diagnostic Well Management
- Due Diligence - Acquisition of Oil & Gas Wells
- Joint Operating Agreements (w/ sample AAPL form 610)
- Legal & Regulatory Issues Related to Oil & Gas
- Low Cost Well Stimulation
- Measurement Problems with Electronic Gas Metering
- Natural Gas Sales Options
- Natural Gas Measurement
- Oil & Gas Management - From the Beginning
- Oil & Gas Measurement Problems
- Plugging - The Last Resort
- Polymer Applications for Marginal Wells
- Production Equipment
- Lease Pumper's Handbook (3-ring binder) \$60.00
- Reducing Power Costs in Old Oil & Gas Fields
- Environmental Compliance for Marginal Well Producers
- Troubleshooting Rod Pumped Wells
- Well Operations - Engineering & Geology
- Back to Basics - Open Hole & Cased Hole Logging
- Chart Type Gas Meters & How to Calculate Gas Production

### Workbooks Continued

(\$15.00 unless otherwise stated)

- Converting Stranded Gas to Electricity
- Downhole & Beam Pump Optimization
- Federal Forms, Rules & Regulations for Oil & Gas Operators
- Fundamental Surface Production & Operations
- Gas Contracts
- Gas Gun Technology & Optimized Stimulation Solutions
- Improving Production Efficiency with Fluid Level Data
- Maximize Rod String Life Through Proper Handling & Care
- Treating Natural Gas for Maximum Value
- Vapor Recovery Units & Wellhead Compression
- Velocity Strings, Capillary Strings & New Technologies
- Nuts & Bolts of Natural Gas Balancing
- Solutions to Organic Near Wellbore Damage
- Squeeze Cementing
- Production Fishing Tools
- Packers & Bridge Plugs
- Electric Wireline & Slickline Work in Cased Holes
- Marginal Oil & Gas Well Accounting

You can also purchase publications using your credit card online at the Marginal Well Commission's Online Store:

[http://www.ok.gov/triton/modules/store/index.php?store\\_id=1](http://www.ok.gov/triton/modules/store/index.php?store_id=1)

### Video's

(\$20.00 unless otherwise stated)

- Advanced Plunger Lift
- Asphaltene & Paraffin Problems
- Due Diligence - Acquisition of Oil & Gas Wells
- Oil & Gas Management - From the Beginning \$10.00
- Plugging - The Last Resort
- Reducing Power Costs in Old Oil & Gas Fields
- Downhole & Beam Pump Optimization

### CD-ROM

(\$25.00 unless otherwise stated)

- Lease Pumper's Handbook

### FREE

- Exploration & Production Risks - Do You Have a Plan?

(Manual only has bulleted guidance information)
