*The Oklahoma Commission on Marginally Producing Oil and Gas Wells
is sponsoring a workshop*

State Forms, Rules & Regulations for Oil & Gas Operators - 2008

Workshop Panel:

Oklahoma Corporation Commission, Oklahoma Tax Commission, Oklahoma Department of Environmental Quality, Oklahoma Department of Labor, Oklahoma Workers' Compensation Court

These agencies have come together to bring the most current rules & regulations within their agencies that affect the oil and gas industry of Oklahoma. They will go over the forms that are submitted daily and explain the most common errors, delays and non-compliance which often times causes the industry to waste time and money. They will explain the proper filing procedures and any changes or updates that have occurred in the last few years. The Oklahoma Tax Commission will go over some of the incentives and rebates that are available, how to determine if you qualify and how to file the proper paperwork. You will be able to meet with representatives from each of these agencies and clarify any misconceptions or discuss issues that are relevant to the oil and gas industry. You will be provided with a manual that will include all of the forms that will be discussed at this workshop. Please be aware there are many of these forms that can be, and in some cases, must be filed electronically and you will be given instructions on how to properly file them. This workshop will be conducted in a panel forum. Please do not hesitate to submit any questions or concerns you may have prior to the workshops, and we will address them during the workshop.

Choose one of the following locations:

Ardmore, OK 9:00 AM - 4:00 PM Tuesday, January 22, 2008 Sothern Oklahoma Technology Center Seminar Center - Room B2 Highway I-35 and Interchange 59 (West Entrance)	Enid, OK 9:00 AM - 4:00 PM Thursday, January 24, 2008 Autry Technology Ctr. Main Building - Electorium 1201 West Willow
