STATE SUPERINTENDENT

Information from the State Superintendent

Superintendent Barresi said in light of the recent election, among the things that I am most proud of during my term as State Superintendent is the light we have been able to shine on accountability in education. It is time to start speaking truth to power. When I took office, only 26 percent of fourth graders were reading at a proficient level in Oklahoma. More than 40 percent of college freshmen needed to take remedial coursework because they graduated high school without the necessary preparation. Such as been the status quo for years in Oklahoma. The A-F School Report Card and Teacher and Leader Effectiveness (TLE) Evaluation System Education reforms in the recent year are achieving classroom excellence graduation requirements, and the Third Grade Reading law shines a bright light on the places doing a terrific job of educating children. However, it also reveals those that are not doing terrific jobs and failing our children. Only when we know and can see clearly successes and failures can we really expect positive change. As I leave my office in six months, it will be your job, Board Members, to make sure we continue to illuminate the successes and the failures of our schools. It remains critically important that parents and communities clearly understand how their local schools are performing in terms of academic achievement. Ask questions, probe, and do not be turned away because persistence will reveal the truth. It remains critically important that citizens have the information needed to gage the effectiveness of local teachers, principals, and superintendents. Having an effective teacher in a classroom and an effective leader in a building enables student success. It remains critically important that children are able to read by the time they reach third grade. This is a fundamental right for our children. It will be up to you to make sure our schools are helping students achieve these fundamental goals.

Minutes of the Regular Meeting of
the State Board of Education
June 26, 2014

I thank you all for your service as members of the State Board of Education. I know it is sometimes a challenging and often thankless job. Every one of you has been a strong advocate for children, and your work is significant. It has been an honor to serve with you, and I am happy to continue serving with you for the next six months. There is much more work that is yet to be done.

Now that our state budget is officially signed, I want to thank Governor Fallin and the legislature for providing \$80 million in additional funding for K-12 public education this year. Joel Robison, Chief of Staff, will provide an outline of the funding later in the meeting.

The Commission for Educational Quality and Accountability met last week on some of the details surrounding the fifth grade social studies test, and fifth grade and high school U.S. History tests. The Commission unanimously approved the performance level descriptors and set the performance cut scores for the test in line with the recommendations of the Standards Setting Committees. Also, the Commission unanimously approved a plan to phase in the cut scores over three years from 2013 through 2016. We anticipate having the finalized scores of these assessments at the July State Board of Education (SBE) regular meeting.

Teri Brecheen, OSDE, Executive Director of Literacy, will present and explain the process for the development of the new academic standards. House Bill 3399 mandates the Oklahoma State Department of Education (OSDE) coordinate the creation of these standards by 2016. By design, the process we are launching is focused on being as comprehensive and inclusive as possible. We truly believe we can rebuild education in this state if this is done appropriately and with the right motives of the children first and foremost in our hearts. The new standards must be written by Oklahomans for Oklahoma children and reflect our state values and commitment to excellence. The standards will be created through a statewide conversation guided by committees and teams that are tasked with writing standards for English Language Arts and Mathematics. We are excited by what we believe are a dynamic and inclusive process and plan, and certain it will spark a healthy exchange of ideas.

I am excited about the VISION2020 Conference scheduled on July 15-17 and will be held at the Cox Convention Center. Educators and parents have been registering to attend the many breakout sessions and the Parent Power Night that focuses on information and issues of particular relevance for parents. All parents are invited and encouraged to participate in this session and all other conference sessions, and it is FREE. The twelve finalists for the next Oklahoma Teacher of the Year (TOY) will be announced during the conference. Over the course of the conference, three keynote speakers will deliver inspiring messages and insight on Tuesday, Wednesday, and Thursday. VISION2020 conference will be a great event for anyone and a chance for Oklahoma teachers to come together, share ideas, and learn new techniques.

Budget Revisions for Federal Programs, Changes to Oklahoma Cost Accounting System (OCAS) Policies and Procedures Approved

Mathangi Shankar, Director, Financial Services, presented a request to revise the current Oklahoma Cost Accounting System (OCAS) procedures that pertain to the Federal Program reimbursement and specifically on the requirements for doing budget revisions. Current procedures allow expenditures to exceed the approved budgeted function-objective category by 100%, provided the sum of all expenditures stays within the total budget. The rule has been in effect since 1999 and prior to which the expenditures were allowed to exceed only up to 10%. During the OSDE Fiscal Year 2013 single audit, the Oklahoma State Auditors became aware of the policy and were concerned the allowed 100 % flexibility will have a negative impact on the OSDE fiscal oversight responsibility. They recommended examining the policy and any risks associated with this practice. The OSDE determined that by limiting expenditures to 25% will not only give the districts a fair amount of flexibility but also a better monitoring tool and the chance to review budget changes more frequently and up front to assure funds are spent for allowable activities.

Board Member Ford made a motion to approve the request. Member Franks seconded the motion. The motion carried with the following votes: Ms. Ford, yes; Mr. Price, yes; Mr. Keating, yes; Ms. Franks, yes; General Baxter, yes; and Mr. Shdeed, yes.

Report on the FY15 Education Appropriation

Joel Robinson, Chief of Staff, presented a report on the fiscal year 2015 line item budget appropriated funds per House Bill 3513. The \$40 million in new money is targeted towards the financial aid of schools directed to the school funding formula to school districts; an additional \$40 million is earmarked for the flexible benefit allowance/health insurance for school employees. Another significant budget change was zeroing out the REACH Coach program funds, and that funding is divided between the Third Grade Reading Readiness Program and the School Competitive Grants Pool. The timeline for the competitive grants RFPs are due July 2 at 4 p.m., and preliminary scoring is at the SDE on July 8 and 9. Board Members are invited to participate in the initial scoring process. Possibly the RFPs and scores will be submitted to the Board Members by July 14 and hopefully presented at the July 24 State Board of Education (SBE) meeting.

Superintendent Barresi said, in response to Board Member Baxter's inquiry of the scoring committee, she selected people throughout the OSDE in professional services who have various certifications. They will be trained on the rubric and placed in teams of three to score the applications per their certified areas. Applications have increased this year as well as funding increased.

Mr. Robison said one of the advantages of this year's approach versus last year's approach is that the committee members are selected from a wide range of subject area concerns: math, science, English, and reading. Developing these specialist teams in those particular areas to review the RFPs, they will better able to understand and better able to score more appropriately. Board Members will receive every RFP and score, and once again the SBE members are the final decision makers.

Board Members discussed committee selection process/qualifications/training; RFP evaluation process and scoring criteria; Board participation, review and determination; and REACH Coach approach, service and support.

Implement Priority Academic Student Skills (PASS) subject matter standards in English Language Arts and Mathematics as the subject matter standards implemented statewide as required

Kimberly Richey, General Counsel, presented a request to approve the *Priority Academic Student Skills (PASS)* subject matter standards for statewide implementation. House Bill 3399 authorizes and requires the SBE to implement subject matter standards in English Language Arts and Mathematics that were in place prior to the revisions adopted by the SBE in June 2010.

Board Member Franks made a motion to approve the request. Board Member Price seconded the motion.

Board Members discussed the pending court ruling of the lawsuit considering the constitutionality of the effect of legislation in which members are plaintiffs.

Ms. Richey advised she spoke with the attorney representing the four board members in the lawsuit and obtained written authorization to address the issue today because it relates to the lawsuit. The section of the lawsuit brief that addresses Subsection 3 of House Bill 3399 relates to the revision and adoption of new standards. It is a direction to implement the previous standards that were in place prior to the adoption of Common Core. For clarification, Ms. Richey said she could not advise how to vote in this matter if a member is named as a plaintiff. A copy of the lawsuit was received at 5 p.m. Wednesday after the board meeting agenda was posted at 9 a.m. Wednesday.

Board Member Franks amended the motion to approve and motioned to table the request. Board Member Price seconded the amendment and the motion. The motion carried with the following votes: Ms. Ford, yes; Mr. Price, yes; Mr. Keating, yes; Ms. Franks, yes; General Baxter, yes; and Mr. Shdeed, yes.

Superintendent Barresi said the law passed as the will of the State of Oklahoma, Oklahoma Legislature, and signed by the Governor. It is specific and speaks directly to school districts that the standards in place prior to 2010 are to be taught in Oklahoma schools this school year. We will continue to faithfully follow the law while waiting on the will of the court on how the lawsuit proceeds forward.

Update on the current status of the ESEA Flexibility Waiver

Kerri White, Assistant State Superintendent, presented an update from the United States Department of Education (USDE) on the ESEA Flexibility Waiver package. The SDE committed to follow the USDE's four principles and the state of Oklahoma committed to fourteen assurances which led to a set of thirteen waivers through the 2013-2014 school year. A State education agency (SEA) could also request an extension of the flexibility, and on April 4, 2014, Oklahoma requested an extension of the flexibility because this is the end of the 2013-2014 school year. Since that time we have had discussions with the USDE regarding clarifications, additional information and revisions. The USDE notified the SDE June 13, 2014, requesting additional information relating to the state standards and assessments for the 2014-2105 school year in order to grant the extension due to passage of House Bill 3399. The requested information must be submitted within 60 days of the dated letter which will be August 12.

Ms. White reviewed the principles of the ESEA waiver package, current status, impact of House Bill 3399, loss of waiver, and projected timelines.

The Office of Enterprise Management Services (OMES) under their own authority can take appropriate action to ensure the remaining tasks are completed by the vendor. To clarify, the matter before the Board is solely limited to whether to renew the contract for the full term of an additional year.
