

RADIO :30

TALENT: Two young to middle aged women

Worker 1: Our job isn't glamorous but you meet some interesting people.

Worker 2: We work at a small hotel.

Worker 1: The worst part is cleaning the smoking rooms.

Worker 2: My nose gets all stopped up and my head hurts. Sometimes it lasts for days.

Worker 1: We try to wait awhile before going in but it doesn't seem to help.

Voiceover: Many of the chemicals in secondhand smoke become even more toxic hours after the cigarette is out. Think second hand smoke just smells bad? Think again? Visit [stopswithme.com](http://stopswithme.com). Tobacco stops with me.

Worker 2: Our job is hard enough.

Worker 1: We don't deserve this.
