OKLAHOMA HAY REPORT  
(01/28/09)

OKLAHOMA DIRECT FEEDER CATTLE SALES  
(01/23/09)

ALFALFA HAY: Alfalfa hay movement is slow to moderate and prices are steady. Ice, sleet and cold temperatures covered the entire state the first of the week. The moisture was welcome as the state has been extremely dry this winter. The white ground cover has increased the demand for hay for supplementing grazing cattle rations. Movement of cattle to auctions has slowed due to the weather conditions.

GRASS HAY: Grass hay prices are steady and movement is slow. Weather conditions this week has brought some buying interest for the large quantities of grass hay in the state. Producers looking for hay to purchase or have hay to sell can access the hay directory on the Oklahoma Department of Agriculture's website at [www.oda.state.ok.us](http://www.oda.state.ok.us) or call the Oklahoma Department of Agriculture Hay Hotline at 1-800-580-6543.

Feeder Cattle Weighted Average Report for Week of Jan 17-22, 2009.

Confirmed: 3950      Last week: 5150      Last Year: 4250

Compared to last Week: Feeder steers and heifers 2.00-3.00 lower with most of the trade coming early in the trade period. The feeder market came under additional pressure later in the week after lower futures and cash fed cattle prices added weight to the market. Demand moderate to good for feeder cattle. Auction barns saw lower prices this week as well, especially after Tuesday. Most feedlots, however, remain in the market and are fairly aggressive for numbers at the lower price levels. Some buying interests are more interested in out front purchases anticipating a shorter supply into the spring. Supply included 95 percent over 600 lbs and 34 percent heifers.

Unless otherwise stated prices are FOB weigh point with a 2-3 percent shrink or equivalent and with a 5-10 cent slide on calves and 3-6 cent slide on yearlings from base weights. Current sales up to 14 days for delivery.
