A Licensee is allowed to review and adapt documents already sealed by the original Licensee when modifying the plan and/or bringing the plan up to the current code requirements at the same location as the original site. In this case, the Licensee is required to sign, seal and date only the modifications to the original documents and shall only be responsible for his/her new modifications.
(8) Nothing contained in 55:10-11-7-(7) shall apply to prototype plans, where the Licensee is allowed to review and adapt a prototypical technical submission, making changes to adapt in whole or in part to a different location and/or bring the plan up to the current code requirements. 55:10-11-8. Licensee's seal
(a) Seal required. Every individual authorized to practice architecture or landscape architecture by a License shall procure a seal with which to identify all technical submissions, addenda, field orders and other documents of service issued by the Licensee for use in this State. The seal appearing on any technical submission shall be a prima facie evidence in 55:10-15-1 that said technical submission was prepared by or under the individual named on said seal. Changes made to a signed, sealed and dated end of point product or service that are not designed by the original Licensee and that are not authorized or indicated by the seal of another Licensee on the changes, exempts the original Licensee from any authorship or liability concerning any changes made, including making site changes without the knowledge of the Licensee.

(b) Location of seal, signature and date. The seal impression or image shall be across the signature that may be generated electronically by the Licensee responsible to this Board for authorship of the documents thus identified. (d) Use or attempted use of seal by unauthorized individuals. No individual, other than the Licensee represented, shall use or attempt to use the prescribed seal, and no unregistered individual or Entity shall be authorized to use the prescribed seal, except as described in (c) above. Use, reproduction distribution or attempted use of the seal shall include using a set of construction documents to construct a structure on another site without the permission of the original Licensee or making unauthorized copies, modifications or incorporating any portion of the specifications into another work without the use of a Licensee's seal, signature and date authorizing such modifications. Prototype building plans are not required to carry the seal, signature and date of the original Licensee, but must prior to their issue in Oklahoma be marked and qualified by a written statement to the effect of: "Prototypical design submissions not for regulatory approval or construction." These submissions do not comprise a final, comprehensive set of design and construction documents and are not intended for use on any specific project without the appropriate review, modifications and integration into the work of a licensed architect engaged to provide professional architectural services for the specific project.

(e) Entire Contract. Any licensed Architect or Landscape Architect preparing documents that would be considered to fulfill an entire contract with a client being the end point of service, whether or not the plans are complete, shall sign, seal and date those documents. The Licensee may add any words on the documents that he/she/it chooses to indicate an incomplete document and not for construction notice.

(f) Technical submissions. Architects and Landscape Architects are permitted to review and adapt portions of technical submissions if:

(1) the seal of the original Architect or Landscape Architect appears on the submissions to authenticate authorship.
(2) the succeeding Architect or Landscape Architect clearly identifies all modifications to the submissions.
(3) the succeeding Architect or Landscape Architect assumes responsibility and liability for the adequacy of the design on the modifications.
(4) the documents are prototypical technical submissions. An architect may sign and seal technical submissions prepared by another person if the signing and sealing architect has reviewed the work and has integrated the work into his/her own technical submissions and the other technical submissions are prototypical building documents. Any licensed architect signing or sealing technical submissions integrating the work of another into the licensed architect's own work as permitted above shall maintain that such review and integration met the required professional standard of care. In applying his or her seal, the Oklahoma licensed architect assumes full responsibility in its entirety for the documents as if fully prepared by or under the Oklahoma licensed architect's responsible control.
55:10-11-10. Required use of seal, signature and date on documents and retention period

(c) An Architect, Landscape Architect or Entity shall retain a copy of all technical submissions produced for a minimum of ten (10) years following the date of preparation. Should the submissions be retained by electronic means, all submissions shall be updated into current versions so they are accessible at all times and can be printed out in a legible format.

55:10-11-11. Prohibition on submitting documents without seal, date and signature
No Architect or Landscape Architect shall submit technical submissions for a building permit or other submission without affixing his/her seal, date and signature to the work. All technical submissions shall clearly state the name of the firm, and the Licensee responsible for the project and the date prepared.

55:10-11-12. Prohibited use of seal
(a) Prohibition on sealing documents. No Licensee shall affix or attempt to affix the seal, signature or dates to sketches, drawings, specifications or other documents developed by unlicensed persons that are not employees in their offices or professional consultants except as stated in OAC 55:10-11-9(e) (f).

   (2) the Licensee had full authority to determine their development; and
   (3) the Licensee has reviewed and adopted, in whole or in part, architectural or landscape architectural portions and has either coordinated their preparation or integrated them into the work.

The Board expects each Licensee or Entity to undertake only those professional assignments he/she or it is qualified to perform and lawfully authorized to undertake. The following practices, among others may be deemed gross incompetence:

(d) When such decisions promote procedures, techniques, materials, systems, etc., unfamiliar to the planning and/or building team involved, the Licensee, Entity or individual representing same, is expected to exercise extraordinary care and attention to the process, insuring as best he/she can the result sought.
(e) If, in the judgment of the Board, a Licensee, Entity or individual representing same, does not demonstrate concern, attention and involvement stated in this Section, and failure to do so brings jeopardy to the project, public or client, the Board may deem such neglect to be recklessness.
(f) A Licensee or Entity shall not aid or abet any unlicensed party in practicing architecture or landscape architecture. Aiding and abetting shall include furnishing limited services in such a manner as to enable owners or unlicensed parties to evade the requirements of the Act or Rules in this Chapter. Incomplete plans shall be clearly marked as incomplete and not for construction if services are terminated during the contract.

Dishonest practice means the following practices, among others, may be deemed dishonest practice:

(1) Acts which evidence violation, or attempts to violate, any laws or Rules of this or any other state relating to licensing or the practice architecture or landscape architecture.
