Recent Updates and Improvements

- The Board updated its online systems with a new License Portal and Application Portal. The License Portal allows each licensee to access their license information, Continuing Education logs, and renewals easily and quickly; they can also print off wall certificates and wallet cards, which include their license number and the date their license expires, to give to clients or potential clients. The Application Portal streamlines the application process and allows the applicant to easily submit all required documents, to determine where their application is at in the process, and to pay their licensing fees.
