Description of Amendment:

a. This is to incorporate the following:

Questions regarding solicitation are answered as follows:

Q.) Would you please clarify the dimensions on line items #7 and #8? The Bell Jar with a diameter of 75mm and height of 55mm? And Bell Jar with 200mm x 200mm?

A.) The items in question are bell jars; these are comprised of a base plate and a glass cover which fits nested on the base plate. The dimensions that are in question are the diameters and heights apparently and how they define the size of the bell jars. The dimensions on line 7 are 75mm in diameter and the height is 55mm, and for line 8 they are 200mm width and 200mm height. The diameter for both line items is for the outside edges of the base plate. The height on both items is the distance from the surface that the base plate is setting on to the top of the glass cover. Usually the glass cover has a small knob for lifting it off the base plate and this is included in the height dimension.

Q.) What are the actual quantities requested on line item 2 and 3? Line item 2 indicates 5 each of set of 5, and line item 3 requests 6 each of set of 6.

A.) Line item 2 is only supposed to be one (1) set of five (5) standards. Line item 3 is only supposed to be one (1) set of six (6) standards

b. All other terms and conditions remain unchanged.
