<b>OFM Nominee</b>	White Last Name	Michael First Name
Justification:	<p>On March 10th the Agricultural Complex lost power. One of Michael's many tasks during this 3 hour outage was to check and clear every square foot of both buildings to insure that there are no persons left in harms way. During the checks of the elevators Michael detected that one of the elevators was stuck between floors and someone was inside the car. The person in the car was the Director of the Public Information Office and was very upset (shaken). As Michael worked to get into the car he repeatedly reassured him in an effort to help keep this elder statesman calm. After opening the inner door, Michael determined that the car was to far down for this elderly gentleman to climb out by himself, so Michael went into the car and physically helped him up and out of the elevator. Michael went the extra mile and remained calm in the face of adversity.</p>
