NOTICE TO REAL ESTATE LICENSEES AND CONSUMERS

Recently, the Oklahoma Real Estate Commission has been receiving calls from consumers regarding solicitation calls they were receiving from companies making offers to purchase their time shares. Our research indicates these companies are conducting business using the names of Oklahoma real estate licensees, when in fact, the licensee is not the actual person involved. It appears the licensee's name and license number is being used fraudulently. If you are contacted by someone offering to purchase your time share, please call to confirm the company and the individual is properly licensed. Our office will provide you with the name of the company with which the licensee's license is placed.
