

# How To Program the Phone

## Meridian Telephone

### To Store a number when you're not on a call

Without lifting the handset, press the Fast Dial button to be programmed.  
Dial the number (include 9 for outside line)  
Press the Fast Dial button of your choice. Any number previously stored is replaced.

### To display a stored number

Without lifting the handset, press the Fast Dial button to be displayed  
To clear, press the Fast Dial button again.

**Comment [KH1]:** There are other documents dealing with the Phone. You need to google a pic of the phone or you can capture it from another phone document and edit it to your needs.

**Comment [JM2R1]:** Corrected as requested and resubmitted
