

# STATE OF OKLAHOMA

## INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS PLAN

Fiscal Year 2008

INFORMATION SERVICES DIVISION

OFFICE OF STATE FINANCE

## TABLE OF CONTENTS

Section	Page Number
I. Executive Summary	3
II. House Bill 2935	4
III. Defined Categories and Descriptions	5
IV. Reporting Population	6
V. Computing and Storage - Summary of the Five Largest individual categories and corresponding Projects	7-10
VI. Telecommunications - Summary of the Five Largest individual categories and corresponding Projects	11-13
VII. Network – Summary of the Four Largest categories and corresponding Projects	14-15
VIII. Agencies with the Largest Information Technology and Telecommunications Budget	16-18

Appendix “A” Category Totals. All Agencies Planned FY-08 Projects by Pre-Defined Category

Appendix “B” – Budget Report. Summary of Agencies, FY-08 Planned Spend

A copy of this publication has been deposited with the Oklahoma Department of Libraries.

## I. Executive Summary

The Office of State Finance serves as a coordinator and facilitator for collecting and reporting the required Information Technology and Telecommunications Plans, on the state-wide level. In this capacity the Office of State Finance encourages joint projects and common systems, linking of agency plans, and helps ensure that developments or acquisitions are consistent with statewide objectives and standards. The Office of State Finance also reviews the proposed systems to make sure they are justified in terms of cost effectiveness.

In the last three years the Office of State Finance reduced the State's Information Technology and Telecommunication expenditures by over \$13,000,000. This was accomplished by competitive bidding telephone rates, negotiating better maintenance rates, standardizing configuration for personal computers, auditing of previously paid telephone invoices, and eliminating duplication.

In addition to the above responsibilities, the Information Services Division of the Office of State Finance is responsible for the State's Data Center and Central Communications System, implementing and processing the State's integrated financial and management information system (CORE), managing the State Portal System, and monitoring the security of the State's communication backbone. The division also contracts with other State Agencies to perform information and procurement services, thereby freeing up their staff to focus on their primary mission.

The data contained in this report has been summarized according to planned spend (new projects) and operational expenses, for the fiscal year of 2008. The category numbers and definitions are used as a point of reference (see section III below). The appendices contain the documents that support the analysis provided within.

The total planned statewide Information Technology and Telecommunications expenditures for fiscal year 2008 are \$497,513,974.00; as summarized below. Oklahoma Colleges and Universities Represent 31% of the total, or \$154,909,395. An overall 9% increase in Planned Spend from FY-07 to FY-08 was noted.

New Projects FY-08	\$171,054,530
*Information Technology Operations	\$271,653,352
*Telecommunications Operations	\$54,806,092

\*Operations include the planned spend for on-going expenses; salary and benefits, utilities, hardware maintenance, software maintenance, recurring expenses incurred prior to this plan year.

## II. Oklahoma House Bill (HB) 2935

**General Background.** HB 2935 modified the name of the pre-existing long-range Data Processing and Telecommunications plans to that of "Information Technology and Telecommunication Plan". The Plan is now a one-year operations plan. Each agency of the Executive Branch, presently using, or contemplating using telecommunications and electronic information technology applications, must submit their one-year plan by July 1<sup>st</sup> of each year, beginning July 1, 2007 for fiscal year 2008; to the Office of State Finance.

**Information Technology and Telecommunications Plan on File.** All agencies of the Executive Branch must have a plan on file prior to procuring Information Technology or Telecommunications related items. Furthermore, no agency of the executive branch shall enter into any agreement for such services unless the cost has been included in the plan for the agency.

**Purchasing and Procurement Limitations and Restrictions.** No agency of the executive branch may use state funds, or enter into agreement for the acquisition of computer hardware, software, or related contracted service and equipment, exceeding twenty-five-thousand dollars (\$25,000.00) in value, without written authorization of the Director of State Finance. The provisions of this section do not apply to any member of the State System of Higher Education, any public elementary or secondary schools of the state, or any technology center school district as defined in Section 14-108 of Title 70 of the Oklahoma Statutes.

**Zero Dollar Threshold on Telecommunications Approvals.** No agency of the executive branch of the state shall use state funds for or enter into any agreement for the acquisition, development or enhancement of a communication or telecommunication system including voice, data, radio, video, Internet, eGovernment, and facsimile systems; without the written authorization of the Director of State Finance. Furthermore, no telephone, teletype, switchboard, line, cable system, data communication system, internet, eGovernment, or systems of communication or intercommunication are to be installed in any building or buildings owned, rented, leased, or otherwise held by this state or its agencies at locations described, without the written order of the Director of State Finance.

An Office of State Finance Standard Form 115 is utilized for the necessary approvals mentioned above.

### III. Defined Categories and Descriptions

COMPUTING / STORAGE		
1	Personal Computer (PC)	Desktop personal computer including monitor and keyboard. RISC workstations, CAD, stand alone and networked workstations.
2	Mobile Computing Device	Laptop computer, Tablet or similar device utilized for mobile computing.
3	Mobile Telecommunications Device	Blackberry, Palm Pilot, Satellite phone or similar device primarily utilized as Personal Digital Assistant.
4	Standalone Printer	Printer (laser, inkjet, impact) not attached to a network but attached directly to a computer (PC, mainframe, enterprise server). Printer does not include a network interface card.
5	Network Printer	Printer (laser, inkjet or impact) attached to a network. Printer includes network interface card.
6	Multi Function Device	Combination Printer / Fax / Copier / Scanner. Can be standalone or attached to a network.
7	Server - Stand Alone	Server that is rack or cabinet mounted with single or multi-processors.
8	Blade Server	Server mounted in a Blade Center with single or multi-processors.
9	Network Equipment	Equipment supporting network infrastructure including switches, routers, firewalls and similar devices.
10	Mainframe Computer	Large, stationary computer capable of storing massive amounts of data, supporting many users simultaneously, and running a wide variety of applications all at one time. May be a new mainframe or mainframe upgrade.
11	Enterprise Server	Large, stationary server containing programs that collectively serve the needs of an enterprise rather than a single user, department, or specialized application. May be a new enterprise server or enterprise server upgrade.
12	Disk Storage	Direct Access Storage Device (DASD). Magnetic disk storage device used in mainframe and enterprise server environments. May be new disk storage or disk storage expansion or upgrade.
13	Desktop Software	Software specifically for PC or mobile computing devices. Can include operating system software (Windows 2000, XP, etc.) and application software (Word, Excel, Acrobat, PowerPoint, AutoCAD, etc.)
14	Server Software	Software specifically for servers. Can include Windows, Linux, AIX, Novell, Domino/Notes, Microsoft Exchange, and application software for specific agency requirements. Servers can be stand alone, Blade or enterprise servers.
15	Mainframe Software	Software specifically for mainframe computers. Can include operating system software (zOS, zLinux, VSE, VM), data base software (DB2, IMS, Oracle), security software (ACF2, etc.), and application software for specific agency requirements.
16	Application Software Acquisition, Development, Modification or Enhancement	Application software to meet specific agency requirements. Expenses for acquiring the software or for contracting for the development, modification or enhancement of software owned by the agency.
17	Consulting Services	Expenses for consulting or contracting services for other than software development or modifications. May include PC, network, server, or other support services, special projects, etc.

TELECOMMUNICATIONS		
30	Leased Circuits	Central Office line, business line, fractional T1, T1, 800 service or point to point private line
31	Mobile two-way Radio Device	Mobile radio, walkie talkie, base station, tower, satellite
32	Voice Systems	Attendant positions, wired telephone instruments, wireless telephone instruments, voice mail systems, interactive voice response systems, conference telephones, PBX, VOIP
33	Relocation	De-install of phone system from one address and install at another address
34	Video Conferencing	Televideo equipment, monitors
44	Telecommunications Software	Upgrades, purchases
45	Telecommunications Services	Local trunks, long distance services, special circuits, 800 numbers, contractual employees etc.

NETWORK		
40	Infrastructure Wiring	Internal and external wiring supporting telecommunications. This includes fiber optic (singlemode and multimode), alarm systems, and Cat 5/6 wiring
41	Network	Routers, layer 2/3 switches, wave division multiplexing, SONET, TDM carriers, DS-3 or greater transceivers/equipment
42	Security - Data and Telecom related	Firewalls, intrusion detection, security software, security appliances, sniffer systems, traffic analyzers, and analysis software
43	Remote Access	Modem pools, remote access servers

#### **IV. Reporting Population**

A new Browser Based Application was developed and utilized for the first time this reporting year. The application has been received well as demonstrated by the improved ease of reporting and agency cooperation.

Of the one hundred fifty six (156) state agencies and colleges, two (2) Universities did not submit their IT and Telecommunications Plans, and seven (7) agencies claimed they are exempt from the requirements.

The Universities that did not submit their plans are identified below:

- 420 – Langston University
- 660 – Southeastern Oklahoma State University

The Agencies that did not submit their plans are identified below:

- 359 – Energy Resources Board
- 369 – Workers Compensation Court
- 618 – Student Loan Authority
- 900 – Oklahoma Development Finance Authority
- 978 – Oklahoma Turnpike Authority
- 980 – Grand River Dam Authority
- 981 – Oklahoma Municipal Power Authority

## V. Computing and Storage – Planned Spend

The combined planned state spend (for projects) pertaining to the “Computing and Storage” categories is \$133,646,501. Summarized below are the five largest individual categories within computing and storage, and the five largest corresponding projects within each of these categories.

- 1) *IT and Application Software Acquisition, Development, Modification, or Enhancement* \$38,201,488

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Capital Project - WORCS Conversion Project Phase II	\$9,000,000	390 Compsource Oklahoma
New Banner Student Information System Implementation	\$3,126,883	760 University of Oklahoma
Finance & Accounting: Equipment for the Offender Banking System staff	\$1,600,000	131 Department of Corrections
Upgrade SBI software	\$1,500,000	100 Cameron University
OKLEX Project - Implementation of information sharing index that can be searched across the state	\$1,200,000	308 State Bureau of Investigation (MIS Director)

2) *Consulting Services*

\$28,951,266

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Implementation of the Central Financial HR, MS and Budget Systems	\$3,632,400	090 Office of State Finance
Middle School Math Labs. Consulting services - special project to set up math labs in schools	\$2,500,000	265 Department of Education
Special Education Management Services. Statewide IEP Service and Monitoring software	\$1,956,000	265 Department of Education
RFP requesting specialized IT staff to support our CSED automated system.	\$1,550,000	830 Department of Human Services
BAS 2007 - includes V2, FSA, Emp ID, Online enrollment, any future change	\$1,385,000	815 Employees Benefits Council

3) *Personal Computer*

\$18,306,873

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Desktop Replacement and Software Applications	\$1,646,000	750 Tulsa Community College
Replace one-third of the on-campus microcomputers, including PC-compatible and Apple	\$1,300,000	120 University of Central Oklahoma
Replacement of outdated PC's	\$1,250,000	131 Department of Corrections
Vista upgrade	\$650,000	15 OSU - Oklahoma City
Replacement and deployment of desk top units & required connectivity. Est, 400 devices	\$600,000	830 Department of Human Services

4) *Desktop Software*

\$6,639,672

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Software that includes annual agreement for Office Productivity tools and specialty desktop tools	\$2,494,700	830 Department of Human Services
Desktop Replacement and Software Applications	\$365,900	750 Tulsa Community College
Replacement of outdated PC's	\$350,000	131 Department of Corrections
District Attorney System Technology Infrastructure (General Revenue and User Fees)	\$280,000	220 District Attorneys Council
Workstation Software Licensing - acquisition and retention of existing licenses	\$200,000	585 Department of Public Safety

5) *Server Software*

\$6,320,047

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Trns*Port - Support of Trns*Port system	\$1,008,100	345 Department of Transportation
Server Software includes license agreements and maintenance, security, and support tools	\$431,010	830 Department of Human Services
Design and implement data mining/analytics server	\$325,000	477 Bureau of Narcotics/Dangerous Drugs
District Attorney System Technology Infrastructure(General Revenue and User Fees)	\$313,552	220 District Attorneys Council
Multi-Media & Webcasting, Meetings, training, video-conferencing, field personnel	\$252,000	390 CompSource Oklahoma

## VI. Telecommunications – Planned Spend

The combined planned state spend (for projects) pertaining to the “Telecommunications” categories is \$21,651,431. Summarized below are the five largest individual categories within telecommunications, and the five largest corresponding projects within each of these categories.

1) *Voice Systems* \$7,032,048

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Replacement and upgrade of voice systems statewide	\$ 3,000,000	131 Department of Corrections
Voice over Internet Protocol (VOIP) telephone systems purchased for agencies supported by OSF	\$ 1,200,000	090 Office of State Finance
OUMC wireless phone system replacement	\$ 500,000	770 University of Oklahoma Health Science Center
Upgrade and expand telephone system	\$ 257,876	623 Seminole State College
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation	\$ 200,000	290 Employment Security Commission

2) *Leased Circuits* \$5,112,653

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
T1, 800, T3, Central Office infrastructure	\$1,500,000	830 Department of Human Services
Phone Service	\$780,000	10 OK State University
Digicom Service Unit Cox & ATT circuits, trunks & LD	\$650,000	770 University of Oklahoma Health Science Center
Leased Circuits listed	\$520,061	266 Oklahoma. Education Television Authority
Telecom Plan Telephone Systems Various locations. Upgrade, expansion, relocation	\$500,000	290 Employment Security Commission

3) *Video Conferencing*

\$3,616,058

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Upgrade Studios	\$400,000	490 Northern Oklahoma College
Upgrades to iPower 970s to VSX 7000e and 9800s to VSX 7000e Misc Cables	\$260,000	340 Health Department
Upgrades to Federal Distance Learning Video Network	\$250,000	025 Oklahoma Military Department
Mission Control Development and Security Equipment	\$215,000	346 Space Industry Development Authority
Smart classroom equipment for 20 classrooms	\$208,000	100 Cameron University

4) *Mobile 2-Wy Radio Device*

\$2,617,000

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
2-Way Radio System - Support and enhancement of statewide radio network	\$2,095,000	345 Department of Transportation
Replace repeaters, vehicle radios and handheld radios to digital format and P25 compliance	\$340,000	477 Bureau of Narcotics/Dangerous Drugs
Cell phone tower at NSU-BA	\$153,000	485 Northeastern State University
TPRS Satellite Phone Repairs/Replacement	\$15,000	340 Health Department
Mission Control Development and Security Equipment	\$5,000	346 Space Industry Development Authority

5) *Telecommunications Services*

\$2,007,497

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation	\$500,000	290 Employment Security Commission
Upgrade all wiring statewide to meet BICSI standards	\$250,000	131 Department of Corrections
Operation of local trunks,LDS,800 numbers & consulting services for support of the OKDHS networks	\$235,000	830 Department of Human Services
Ongoing Services	\$166,800	516 State & Education Employees Group Insurance Board
Network: Current and expanding connectivity, system security and infrastructure for all locations	\$150,000	750 Tulsa Community College

## VII. Network – Planned Spend

The combined planned state spend (for projects) pertaining to the “Network” categories is \$15,756,598. Summarized below are the four individual categories within network, and the five largest corresponding projects within each of these categories. Note: This group contains four categories total.

### 1) *Infrastructure Wiring* \$6,861,237

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Add single-mode fiber to network infrastructure	\$1,000,000	120 University of Central Oklahoma
Cable Plant Upgrade	\$500,000	773 OSU-College of Osteopathic Medicine
Capitol Redundancy	\$450,000	90 Office of State Finance
DPS to Capitol	\$409,000	90 Office of State Finance
Phase II of the I-40 project	\$400,000	90 Office of State Finance

### 2) *Network* \$6,288,145

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
New Construction Devon Hall	\$ 1,050,000	760 University of Oklahoma
Edge Switch Replacement	\$ 675,000	10 Oklahoma State University
Network: Current and expanding connectivity, system security and infrastructure for all locations	\$ 600,000	750 Tulsa Community College
Mission Control Development and Security Equipment	\$ 500,000	346 Space Industry Development Authority
Campus Wireless Expansion	\$ 400,000	10 Oklahoma State University

## 3) Security – Data and Telecom Related

\$2,335,216

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Network Audit - Evaluation of network including security issues	\$ 400,000	585 Department of Public Safety
Network Subscription (NAC Implementation)	\$ 400,000	10 Oklahoma State University
Firewalls, intrusion detection, security software, sniffer systems, and traffic analyzers	\$ 249,770	830 Department of Human Services
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation	\$ 200, 000	290 Employment Security Commission
Network: Current and expanding connectivity, system security and infrastructure for all locations	\$ 190,000	750 Tulsa Community College

## 4) Remote Access

\$272,000

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Telecom Plan / Telephone Systems - Various locations. Upgrade, expansion, relocation	\$100,000	290 Employment Security Commission
Remote access servers to service access to OKDHS files from points other than office locations	\$66,000	830 Department of Human Services
Docushare - Xerox system to provide paperless access to UI claimant information	\$50,000	290 Employment Security Commission
Remote Access Sys	\$15,000	490 Northern OK College
Remote network access	\$10,000	15 OSU - Oklahoma City

### VIII. Agencies with the Largest Information Technology and Telecommunications Budget (IT and Telecom)

Five agencies are summarized in this section for the purpose of identifying those agencies that have the largest IT and Telecom Budget for Fiscal Year 2008. Agencies are summarized from highest to lowest budget. Within each agency, the total planned projects and operations budgets are indicated, along with the agency's five largest planned projects. Note: Agency 807, Health Care Authority, has a total of four projects only.

1) 830 Department of Human Services	\$70,076,525 (Total)
Planned Projects	\$21,550,672
Operations Budget	\$48,525,853

Project Name	Cost	Categories
Mainframe Software supporting the Operating System and software at the OKDHS enterprise level	\$3,719,000	Mainframe Software
Software that includes annual agreement for Office Productivity tools and specialty desktop tools	\$2,494,700	Desktop Software
RFP requesting specialized IT staff to support our CSED automated system.	\$1,550,000	Consulting Services
T1, 800, T3, Central Office infrastructure	\$1,500,000	Leased Circuits
Disk Storage at the enterprise level Est. 40 TB additional needed	\$1,200,000	Disk Storage

2) 807 Health Care Authority	\$42,826,776 (Total)
Planned Projects	\$336,000
Operations Budget	\$42,490,776

Project Name	Cost	Categories
Hardware Improvements	\$119,000	Personal Computer (PC, Network Printer, Server - Stand Alone
Content Management System	\$100,000	Server Software
Additional Desktop Software licenses	\$77,000.00	Desktop Software
Security Improvements	\$40,000	Mobile Computing Device/ Network Equipment/ Desktop Software

3) 760 University of Oklahoma	\$36,322,340 (Total)
Planned Projects	\$5,422,537
Operations Budget	\$30,899,803

Project Name	Cost	Categories
New Banner Student Information System Implementation	\$3,350,216	Enterprise Server/Disk Storage/Application Software Acquisition, Development, Modification or Enhancement(3126883)
New Construction Devon Hall	\$1,325,000	Infrastructure Wiring/ Network
New Construction Waggoner Hall	\$269,000	Infrastructure Wiring/ Network
Remodel of Cross C	\$157,500	Infrastructure Wiring/ Network
New Construction Transportation Facility	\$138,489	Infrastructure Wiring/Network(90000)

4) 090 Office of State Finance	\$34,604,366 (Total)
Planned Projects	\$10,732,170
Operations Budget	\$23,872,196

Project Name	Cost	Categories
Implementation of the Central Financial HR, MS and Budget Systems	\$3,632,400	Consulting Services
Acquire new Enterprise Server for CORE Infrastructure - IBM p595	\$2,170,980	Enterprise Server
Voice over Internet Protocol (VOIP) telephone systems purchased for agencies supported by OSF	\$1,200,000	Voice Systems
Acquire new DASD for CORE infrastructure - IBM DS8000	\$597,190	Disk Storage
Capitol Redundancy	\$450,000	Infrastructure Wiring

5) 10 Oklahoma State University	\$28,503,097 (Total)
Planned Projects	\$6,554,857
Operations Budget	\$21,948,240

Project Name	Cost	Categories
Phone Service	\$780,000	Leased Circuits
Edge Switch Replace	\$675,000	Network
Equipment maintenance/upgrade	\$403,500	Network Printer/Multi Function Device/Desktop Software/Server Software/ Application Software Acquisition, Development, Modification or Enhance /Infrastructure Wiring /Security - Data and Telecom related/Remote Access /Personal Computer/ Mobile Computing Device
Campus Wireless Expansion	\$400,000	Network
Network Subscription (NAC Implementation)	\$400,000	Security - Data and Telecom related

**Appendix “A”**  
**Category Totals. All Agencies Planned FY-08 Projects**  
**by Pre-Defined Category**

**Note: Operations Budgets are not included in this section. Listed here are planned projects only.**

# Statewide Category Totals Report

Category Number	Category Description	Total Cost
1	Desktop personal computer including monitor and keyboard. RISC workstations, CAD, stand alone and networked workstations.	\$18,306,873.00
2	Laptop computer, Tablet or similar device utilized for mobile computing.	\$3,670,385.00
3	Blackberry, Palm Pilot, Satellite phone or similar device primarily utilized as Personal Digital Assistant.	\$256,100.00
4	Printer (laser, inkjet, impact) not attached to a network but attached directly to a computer (PC, mainframe, enterprise server). Printer does not include a network interface card.	\$362,608.00
5	Printer (laser, inkjet or impact) attached to a network. Printer includes network interface card.	\$1,734,432.00
6	Combination Printer / Fax / Copier / Scanner. Can be standalone or attached to a network.	\$1,343,885.00
7	Server that is rack or cabinet mounted with single or multi-processors.	\$3,943,220.00
8	Server mounted in a Blade Center with single or multi-processors.	\$1,351,328.00
9	Equipment supporting network infrastructure including switches, routers, firewalls and similar devices.	\$4,505,653.00
10	Large, stationary computer capable of storing massive amounts of data, supporting many users simultaneously, and running a wide variety of applications all at one time. May be a new mainframe or mainframe upgrade.	\$1,856,041.00
11	Large, stationary server containing programs that collectively serve the needs of an enterprise rather than a single user, department, or specialized application. May be a new enterprise server or enterprise server upgrade.	\$5,380,900.00
12	Direct Access Storage Device (DASD). Magnetic disk storage device used in mainframe and enterprise server environments. May be new disk storage or disk storage expansion or upgrade.	\$6,198,698.00
13	Software specifically for PC or mobile computing devices. Can include operating system software (Windows 2000, XP, etc.) and application software (Word, Excel, Acrobat, PowerPoint, AutoCAD, etc.)	\$6,639,672.00
14	Software specifically for servers. Can include Windows, Linux, AIX, Novell, Domino/Notes, Microsoft Exchange, and application software for specific agency requirements. Servers can be stand alone, Blade or enterprise servers.	\$6,320,047.00
15	Software specifically for mainframe computers. Can include operating system software (zOS, zLinux, VSE, VM), data base software (DB2, IMS, Oracle), security software (ACF2, etc.), and application software for specific agency requirements.	\$4,623,905.00
16	Application software to meet specific agency requirements. Expenses for acquiring the software or for contracting for the development, modification or enhancement of software owned by the agency.	\$38,201,488.00
17	Expenses for consulting or contracting services for other than software development or modifications. May include PC, network, server, or other support services, special projects, etc.	\$28,951,266.00
30	Central Office line, business line, fractional T1, T1, 800 service or point to point private line	\$5,112,653.00
31	Mobile radio, walkie talkie, base station, tower, satellite	\$2,617,000.00
32	Attendant positions, wired telephone instruments, wireless telephone instruments, voice mail systems, interactive voice response systems, conference telephones, PBX, VOIP	\$7,032,048.00

33	De-install of phone system from one address and install at another address	\$278,050.00
34	Televideo equipment, monitors	\$3,616,058.00
40	Internal and external wiring supporting telecommunications. This includes fiber optic (singlemode and multimode), alarm systems, and Cat 5/6 wiring	\$6,861,237.00
41	Routers, layer 2/3 switches, wave division multiplexing, SONET, TDM carriers, DS-3 or greater transceivers/equipment	\$6,288,145.00
42	Firewalls, intrusion detection, security software, security appliances, sniffer systems, traffic analyzers, and analysis software	\$2,335,216.00
43	Modem pools, remote access servers	\$272,000.00
44	Upgrades, purchases	\$988,125.00
45	Local trunks, long distance services, special circuits, 800 numbers, contractual employees etc.	\$2,007,497.00
<b>2008 Grand Total Cost</b>		<b>\$171,054,530.00</b>

Printed on Nov 8, 2007

**Appendix "B"**  
**Budget Report. Summary of Agencies, FY-08 Planned  
Spend**

**NOTE:** The following information is organized by State Agency for each budget function. Projects are listed by categories under each division, for planned expenditures. A summary is provided at the end of each Agency, indicating the total planned project expenditures and the Information Technology and Telecommunications operations budgets.
