

# STATE OF OKLAHOMA

## INFORMATION TECHNOLOGY AND TELECOMMUNICATIONS PLAN

Fiscal Year 2009

INFORMATION SERVICES DIVISION

OFFICE OF STATE FINANCE

## TABLE OF CONTENTS

Section	Page Number
I. Executive Summary	3-4
II. House Bill 2935	5
III. Defined Categories and Descriptions	6
IV. Reporting Population	7
V. Application Modifications for FY-09	7
VI. Computing and Storage - Summary of the Five Largest individual categories and corresponding Projects	8-11
VII. Telecommunications - Summary of the Five Largest individual categories and corresponding Projects	12-14
VIII. Network – Summary of the Four Largest categories and corresponding Projects	15-16
IX. Agencies with the Largest Information Technology and Telecommunications Budgets	17-20

Appendix “A” Category Totals. All Agencies Planned FY-09 Projects by Pre-Defined Category

Appendix “B” Budget Report. Summary of Agencies, FY-09 Planned Spend

A copy of this publication has been deposited with the Oklahoma Department of Libraries.

## **I. Executive Summary**

This report is prepared annually by the Information Services Division of the Office of State Finance (OSF). The primary purpose of this report is to collectively combine and summarize the annual planned State of Oklahoma spend for Information Technology and Telecommunications products and services. Additional Office of State Finance responsibilities, and the corresponding data and analysis are summarized for informational purposes.

The Office of State Finance serves as a coordinator and facilitator for collecting and reporting the required Information Technology and Telecommunications Plans, on the State-wide level. In this capacity the Office of State Finance encourages joint projects and common systems, links agency plans; and helps ensure that developments or acquisitions are consistent with statewide objectives and standards. The Office of State Finance also reviews the proposed systems to make sure they are justified in terms of cost effectiveness.

In the last four years the Office of State Finance reduced the State's Information Technology and Telecommunication expenditures by over \$13.1 million dollars. This was accomplished by competitively bidding telephone rates, negotiating better maintenance rates, standardizing configuration for personal computers, auditing of previously paid telephone invoices, and eliminating duplication.

In addition to the above responsibilities, the Information Services Division (ISD) of the Office of State Finance is responsible for the State's Data Center and Central Communications System, implementing and processing the State's integrated financial and management information system (CORE), managing the State Portal System, and monitoring the security of the State's communication backbone. The Division also contracts with other State Agencies to perform information technology and procurement services, thereby freeing up their staff to focus on their primary mission.

Below is an itemization of these services, and the corresponding number of agencies OSF is currently assisting within each. Note: Telecommunications Support is reported as the number of telephones rather than total agencies, for unit of measure (UOM).

<b>AGENCY COUNTS FOR EACH SERVICE</b>	<b>UOM</b>	<b># Agencies (Unless Otherwise noted)</b>
Network and Firewall Support	Agencies	57
Email Support	Agencies	46
PC Support	Agencies	27
CRM Utilization	Agencies	3
Server Support	Agencies	21
Help Desk Services	Agencies	1
DP Equipment Housed in Data Center	Agencies	19
Document Imaging Repository Services	Agencies	5
Telecommunications Support – Number of Telephones in State Offices	Total Telephones	13,000
Web Portal through OK.GOV	Agencies	77
Budgeting Services	Agencies	11
Accounts Payable Services	Agencies	14
HR, Payroll, Time & Labor, Benefits	Agencies	15
Procurement Services	Agencies	15

The ISD is responsible for collecting each agency's Hardware and Software Inventory and Disaster Recovery/Business Continuity Plans, on an annual basis. This year 148 agencies submitted their Hardware and Software Inventory data. In terms of Disaster Recovery/Business Continuity Plans, 119 plans were received for this fiscal year.

The data contained in this report has been summarized according to planned spend (new projects) and operational expenses, for the fiscal year of 2009. The category numbers and definitions are used as a point of reference (see section III ). The appendices contain the documents that support the analysis provided within.

The total planned statewide Information Technology and Telecommunications expenditures for fiscal year 2009 are \$588,834,344, as summarized below. Oklahoma colleges and universities represent 33% of the total, or \$193,658,653. Overall, an 18% increase in Planned Spend from FY-08 to FY-09 was noted.

New Projects FY-09	\$246,481,237
*Information Technology Operations	\$256,028,440
*Telecommunications Operations	\$86,324,667

\*Operations include the planned spend for on-going expenses: utilities, hardware maintenance, software maintenance, and recurring expenses incurred prior to this plan year.

## **II. Oklahoma House Bill (HB) 2935**

**General Background.** HB 2935 modified the name of the pre-existing long-range Data Processing and Telecommunications plans to that of “Information Technology and Telecommunication Plan”. The Plan is now a one-year operations plan. Each agency of the Executive Branch presently using, or contemplating using, telecommunications and electronic information technology applications must submit their one-year plan by July 1<sup>st</sup> of each year, to the Office of State Finance.

**Information Technology and Telecommunications Plan on File.** All agencies of the Executive Branch must have a plan on file prior to procuring Information Technology or Telecommunications related items. Furthermore, no agency of the executive branch shall enter into any agreement for such services unless the cost has been included in the plan for the agency.

**Purchasing and Procurement Limitations and Restrictions.** No agency of the executive branch may use State funds, or enter into agreement for the acquisition of computer hardware, software, or related contracted service and equipment, exceeding twenty-five-thousand dollars (\$25,000.00) in value, without written authorization of the Director of State Finance. The provisions of this section do not apply to any member of the State System of Higher Education, any public elementary or secondary schools of the State, or any technology center school district as defined in Section 14-108 of Title 70 of the Oklahoma Statutes.

**Zero Dollar Threshold on Telecommunications Approvals.** No agency of the executive branch of the State shall use State funds for, or enter into any agreement for, the acquisition, development or enhancement of a communication or telecommunication system including voice, data, radio, video, Internet, eGovernment, and facsimile systems, without the written authorization of the Director of State Finance. Furthermore, no telephone, teletype, switchboard, line, cable system, data communication system, internet, eGovernment, or systems of communication or intercommunication are to be installed in any building or buildings owned, rented, leased, or otherwise held by this State or its agencies at locations described, without the written order of the Director of State Finance.

An Office of State Finance Standard Form 115 is utilized for the necessary approvals mentioned above.

### III. Defined Categories and Descriptions

COMPUTING / STORAGE		
1	Personal Computer (PC)	Desktop personal computer including monitor and keyboard. RISC workstations, CAD, stand alone and networked workstations.
2	Mobile Computing Device	Laptop computer, Tablet or similar device utilized for mobile computing.
3	Mobile Telecommunications Device	Blackberry, Palm Pilot, Satellite phone or similar device primarily utilized as Personal Digital Assistant.
4	Standalone Printer	Printer (laser, inkjet, impact) not attached to a network but attached directly to a computer (PC, mainframe, enterprise server). Printer does not include a network interface card.
5	Network Printer	Printer (laser, inkjet or impact) attached to a network. Printer includes network interface card.
6	Multi Function Device	Combination Printer / Fax / Copier / Scanner. Can be standalone or attached to a network.
7	Server - Stand Alone	Server that is rack or cabinet mounted with single or multi-processors.
8	Blade Server	Server mounted in a Blade Center with single or multi-processors.
9	Network Equipment	Equipment supporting network infrastructure including switches, routers, firewalls and similar devices.
10	Mainframe Computer	Large, stationary computer capable of storing massive amounts of data, supporting many users simultaneously, and running a wide variety of applications all at one time. May be a new mainframe or mainframe upgrade.
11	Enterprise Server	Large, stationary server containing programs that collectively serve the needs of an enterprise rather than a single user, department, or specialized application. May be a new enterprise server or enterprise server upgrade.
12	Disk Storage	Direct Access Storage Device (DASD). Magnetic disk storage device used in mainframe and enterprise server environments. May be new disk storage or disk storage expansion or upgrade.
13	Desktop Software	Software specifically for PC or mobile computing devices. Can include operating system software (Windows 2000, XP, etc.) and application software (Word, Excel, Acrobat, PowerPoint, AutoCAD, etc.)
14	Server Software	Software specifically for servers. Can include Windows, Linux, AIX, Novell, Domino/Notes, Microsoft Exchange, and application software for specific agency requirements. Servers can be standalone, Blade or enterprise servers.
15	Mainframe Software	Software specifically for mainframe computers. Can include operating system software (zOS, zLinux, VSE, VM), data base software (DB2, IMS, Oracle), security software (ACF2, etc.), and application software for specific agency requirements.
16	Application Software Acquisition, Development, Modification or Enhancement	Application software to meet specific agency requirements. Expenses for acquiring the software or for contracting for the development, modification or enhancement of software owned by the agency.
17	Consulting Services	Expenses for consulting or contracting services for other than software development or modifications. May include PC, network, server, or other support services, special projects, etc.

TELECOMMUNICATIONS		
30	Leased Circuits	Central Office line, business line, fractional T1, T1, 800 service or point to point private line
31	Mobile two-way Radio Device	Mobile radio, walkie talkie, base station, tower, satellite
32	Voice Systems	Attendant positions, wired telephone instruments, wireless telephone instruments, voice mail systems, interactive voice response systems, conference telephones, PBX, VOIP
33	Relocation	De-install of phone system from one address and install at another address
34	Video Conferencing	Televideo equipment, monitors
44	Telecommunications Software	Upgrades, purchases
45	Telecommunications Services	Local trunks, long distance services, special circuits, 800 numbers, contractual employees etc.

NETWORK		
40	Infrastructure Wiring	Internal and external wiring supporting telecommunications. This includes fiber optic (singlemode and multimode), alarm systems, and Cat 5/6 wiring
41	Network	Routers, layer 2/3 switches, wave division multiplexing, SONET, TDM carriers, DS-3 or greater transceivers/equipment
42	Security - Data and Telecom related	Firewalls, intrusion detection, security software, security appliances, sniffer systems, traffic analyzers, and analysis software
43	Remote Access	Modem pools, remote access servers

#### **IV. Reporting Population**

The Browser Based Application was utilized for on-line data entry of each agency's IT and Telecommunications Plan. This is the second year the application has been in operation. Prior to this, hard copies in varying formats were submitted by each agency. Since implementing the application agency reporting compliance and deadlines have improved dramatically.

One university (Langston) did not submit it's IT and Telecommunications Plan. Some of the "Authority" agencies claimed they were exempt from the requirements, and therefore are not included in this report. In addition, the Energy Resources Board, Housing Finance Agency, and the Workers Compensation Court believe they are exempt from the reporting requirements and are removed from the totals and attached reports.

It should be noted that some of the smaller agencies are not specifically mentioned in this report or the attachments thereto. This is due to the fact that many of the smaller State agencies are represented within a larger State agency's report.

#### **V. Application Modifications for Fiscal Year 2009**

The on-line application was modified this reporting period to include an accessibility drop-down box. Each agency is now required to indicate whether or not their planned purchases will be accessible to individuals with disabilities. All but 17 agencies have indicated 100% compliance. Of those reporting some level of non-compliance, only a small percentage of their planned purchases will not be fully compliant with the standards established.

## VI. Computing and Storage – Planned Spend

The combined planned State spend (for projects) pertaining to the “Computing and Storage” categories is \$189,941,201. Summarized below are the five largest individual categories within computing and storage, and the five largest corresponding projects within each of these categories.

1) *Consulting Services*

\$64,351,949

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Internet E-Government: Electronic Business applications-employer wage reports, tax payments	\$10,000,000	290 - Employment Security Commission
Electronic Benefit Transfer and Electronic Payment Card Contract Re-bid for OK Access cards for 2010	\$8,000,000	830 - Department of Human Services
Equipment/software- maintenance/upgrades/purchases	\$6,000,000	10 - Oklahoma State University
Conversion to/and with People Soft Integration	\$5,000,000	290 - Employment Security Commission
Consulting services for the implementation of CORE Phase II modules.	\$4,784,000	090 - Office of State Finance

2) *IT and Application Software Acquisition, Development, Modification, or Enhancement* \$44,594,985

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Capital Project - WORCS Conversion Project Phase II.	\$9,000,000	390 - CompSource Oklahoma
Internet E-Government: Electronic Business applications-employer wage reports, pay taxes	\$2,500,000	290 - Employment Security Commission
New Banner Student Information System Implementation	\$2,248,587	760 - University of Oklahoma
Agency Web Systems. Development and support of agency Web systems.	\$1,230,809	265 - Department of Education
Trucking One-Stop Shop (SB 114 2004)	\$1,200,000	185 - Corporation Commission

3) *Personal Computer*

\$20,484,865

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Normal hardware 4-year replacement cycle campus-wide	\$1,903,048	100 - Cameron University
Desktop computer replacement and Software Applications	\$1,500,000	750 - Tulsa Community College
Replace one-third of the on-campus microcomputers, including PC-compatible and Apple.	\$1,300,000	120 - University of Central Oklahoma
OLETS Workstations - New and upgraded computer workstations.	\$1,275,000	585 - Department of Public Safety
Replace PCs and MS Office	\$1,001,270	131 - Department of Corrections

4) *Desktop Software*

\$11,032,062

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Internet E-Government: Electronic Business applications-employer wage reports, pay taxes	\$1,500,000	290 - Employment Security Commission
Trns*Port - Support of Trns*Port system	\$1,000,000	345 - Department of Transportation
PS/Oracle license expansions	\$521,211	770 - Univ of Okla. Health Science Center
Operations Support - Support of HW/SW need for Administration Divisions	\$500,000	345 - Department of Transportation
SW Agency-wide - Maintenance & Upgrades to existing software	\$500,000	345 - Department of Transportation

5) *Server Software*

\$7,683,668

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Mainframe Software supporting the Operating System and software at the OKDHS enterprise level.	\$3,900,000	830 - Department of Human Services
Acquisition of Medical Records software system-wide.	\$2,000,000	131 - Department of Corrections
Healthcare Enterprise System Upgrade - Practice Management and Electronic Medical Records	\$750,000	773 - OSU-College of Osteopathic Med.
DPS Mainframe Operating System- Continuing lease.	\$400,000	585 - Department of Public Safety
SW Agency-wide - Maintenance & Upgrades to existing software	\$300,000	345 - Department of Transportation

## VII. Telecommunications – Planned Spend

The combined planned State spend (for projects) pertaining to the “Telecommunications” categories is \$33,431,905. Summarized below are the five largest individual categories within telecommunications, and the five largest corresponding projects within each of these categories.

1) *Voice Systems* \$8,410,205

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Voice over Internet Protocol (VoIP) phone system and expansion for agencies supported by OSF.	\$1,200,000	090 - Office of State Finance
Upgrading and installation of systems across numerous Agency facilities	\$1,090,543	830 - Department of Human Services
Replace voice systems multiple locations	\$1,039,860	131- Department of Corrections
Phone system and lease programs	\$750,000	770 – Univ. of Okla. Health Science Center
Phones	\$530,000	185 - Corporation Commission

2) *Telecommunications Services* \$7,328,198

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
FY 2009 OKDHS cell phone hardware and services	\$2,400,000	830 - Department of Human Services
TELEPHONE VOTING. Voting system improvements for persons with visual and physical disabilities.	\$1,377,543	270 - State Election Board
General Telephone Services	\$750,000	10 - Oklahoma State University
Telecommunications Plan/Telephone Systems	\$500,000	290 - Employment Security Commission

- Various locations. Upgrade, expansion, relocation.		
Operation of local trunks, LDS,800 numbers & consulting services for support of the OKDHS networks.	\$275,000	830 - Department of Human Services

3) *Video Conferencing*

\$7,340,264

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
ITLE High Definition video facilities upgrade, including equipment and infrastructure improvements.	\$3,188,314	10 - Oklahoma State University
Upgrades to OKARNG Distance Learning Network	\$500,000	25 - Oklahoma Military Department
Upgrade ITV Studios	\$400,000	490 - Northern Oklahoma College
Codian maint. fees; Maint. polycom ; Sat. maint.Tele. supt. studio maint. and salaries/fringes.	\$267,000	340 - Health Department
ITLE technology installation and/or upgrade of 44 campus classrooms	\$233,000	10 - Oklahoma State University

4) *Leased Circuits*

\$6,098,062

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
T1, 800, T3 central office infrastructure	\$1,500,000	830 - Department of Human Services
ATT/Cox circuits	\$811,566	770 – Univ. of Okla. Health Science Center
Telecom Data Lines thru ATT, Cox, CableOne, etc. Field Offices	\$535,000	805 - Dept. of Rehabilitation Services

OETA Leased Circuits listed.	\$535,000	266 - Okla. Education Television Auth.
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation.	\$500,000	290 - Employment Security Commission

5) *Mobile Two-Way Radio Device*

\$3,078,006

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
2-Way Radio System - Support and enhancement of statewide radio network	\$2,000,000	345 - Department of Transportation
Replace repeaters, vehicle radios and handheld radios to digital format and P25 compliance.	\$802,106	477 - Bureau of Narcotics/Dangerous Drugs
Cell phone tower at NSU-BA	\$175,000	485 - Northeastern State University
260 PCs with Microsoft Office licenses 88 Printers (network capable) One color printer 17 Windows servers with Windows 2003 server licenses	\$46,000	131 -Department of Corrections
The project is to equip the patrol units with laptop computers for field reporting of cases.	\$20,000	10 - Oklahoma State University

## VIII. Network – Planned Spend

The combined planned State spend (for projects) pertaining to the “Network” categories is \$23,108,131. Summarized below are the four individual categories within network, and the five largest corresponding projects within each of these categories. Note: Network contains four categories *total*.

### 1) Infrastructure Wiring

\$10,820,115

Project Name	Cost	Agency
Add single-mode fiber to network infrastructure.	\$1,750,000	120 - University of Central Oklahoma
Replace and repair cabling throughout the DOC	\$1,320,000	131 - Department of Corrections
Network Upgrade - Outside Plant	\$1,300,000	760 - University of Oklahoma
Campus switch and wireless network projects	\$600,000	770 – Univ. of Okla. Health Science Center
Phases II and III – I-40 Project.	\$500,000	090 - Office of State Finance

### 2) Network

\$9,097,841

Project Name	Cost	Agency
Campus switch and wireless network projects	\$2,200,000	770 – Univ. of Okla. Health Science Center
Equipment Rotation (Wired and Wireless)	\$975,000	10 - Oklahoma State University
New Construction Devon Hall	\$679,850	760 - University of Oklahoma
Network: Current and expanding connectivity, system security and infrastructure for all locations	\$600,000	750 - Tulsa Community College
Mission Control Development and Security Equipment	\$500,000	346 - Space Industry Development Authority

3) Security – Data and Telecom Related

\$2,802,175

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Infrastructure management tools	\$500,000	770 – Univ. of Okla. Health Science Center
Network Audit- Evaluation of network to include security issues.	\$400,000	585 - Department of Public Safety
Firewalls, intrusion detection, security software, sniffer systems, and traffic analyzers.	\$250,000	830 - Department of Human Services
Network: Current and expanding connectivity, system security and infrastructure for all locations	\$250,000	750 - Tulsa Community College
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation.	\$200,000	290 - Employment Security Commission

4) Remote Access

\$388,000

<b>Project Name</b>	<b>Cost</b>	<b>Agency</b>
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation.	\$100,000	290 - Employment Security Commission
Remote access servers to service access to OKDHS files from points other than office locations.	\$75,000	830 - Department of Human Services
Docushare - Xerox system custom designed to provide paperless access to UI claimant information.	\$50,000	290 - Employment Security Commission
Align DOC with State security guidelines	\$35,000	131 - Department of Corrections

#### IV. Agencies with the Largest Information Technology and Telecommunications Budget (IT and Telecom)

Five agencies are summarized in this section for the purpose of identifying those agencies that have the largest IT and Telecom Budget for Fiscal Year 2009. Agencies are summarized from highest to lowest budget. Within each agency, the total planned projects and operations budgets are indicated, along with the agency's five largest planned projects (NOTE: Health Care Authority has four planned projects for the entire fiscal year).

1. 830 Department of Human Services	\$60,821,062 (Total)
Planned Projects	\$33,890,907
Operations Budget	\$26,930,155

Project Name	Cost	Categories
Electronic Benefit Transfer and Electronic Payment Card Contract Rebid for OK Access cards for 2010	\$8,000,000	Consulting Services
Mainframe Software supporting the Operating System and software at the OKDHS enterprise level.	\$3,900,000	Mainframe Software
FY 2009 OKDHS cell phone hardware and services	\$2,500,000	Telecommunications Services, Mobile Telecommunications Device
Software that includes annual agreement for Office Productivity tools and specialty desktop tools	\$2,500,000	Desktop Software
T1, 800, T3 central office infrastructure	\$1,500,000	Leased Circuits

2. 807 Health Care Authority  
 Planned Projects  
 Operations Budget

*\$46,156,154 (Total)*  
 \$418,098  
 \$45,738,056

<b>Project Name</b>	<b>Cost</b>	<b>Categories</b>
Hardware Improvements	\$175,400	Network, Server - Stand Alone, Personal Computer (PC)
Xerox Copier Lease	\$121,688	Multi Function Device
Security Improvements	\$63,000	Consulting Services, Server Software, Desktop Software
Additional Desktop Software licenses.	\$58,010	Desktop Software

3) 290 - Employment Security Commission  
 Planned Projects  
 Operations Budget

*\$42,994,160 (Total)*  
 \$28,264,000  
 \$14,730,160

<b>Project Name</b>	<b>Cost</b>	<b>Categories</b>
Internet E-Government: Electronic Business applications-employer wage reports, pay taxes	\$15,000,000	Consulting Services, Application Software Acquisition, Development, Modification or Enhancement, Server Software, Network Equipment, Server - Stand Alone
Conversion to/and with People Soft Integration	\$5,000,000	Consulting Services
Telecommunications Plan/Telephone Systems - Various locations. Upgrade, expansion, relocation.	\$2,100,000	Telecommunications Services, Telecommunications Software, Remote Access, Security - Data and Telecom related, Network, Infrastructure Wiring, Relocation, Voice Systems, Leased Circuits

Workflow Project & Imaging - Imaging of documents for movement through the workflow processes.	\$1,200,000	Consulting Services, Application Software Acquisition, Development, Modification or Enhancement, Disk Storage
UI Benefits Redesign - Open systems platform of relational database for UI Benefits System.	\$1,000,000	Consulting Services, Application Software Acquisition, Development, Modification or Enhancement

4) 010 Oklahoma State University  
Planned Projects  
Operations Budget

\$41,622,036 (Total)  
\$20,216,287  
\$21,405,749

Project Name	Cost	Categories
Equipment/software-maintenance/upgrades/purchases	\$6,388,000	Infrastructure Wiring, Video Conferencing, Consulting Services, Server Software, Desktop Software, Disk Storage, Network Equipment, Blade Server, Server - Stand Alone, Network Printer, Standalone Printer, Mobile Telecommunications Device, Mobile Computing Device, Personal Computer (PC)
ITLE High Definition video facilities upgrade, including equipment and infrastructure improvements.	\$3,520,504	Infrastructure Wiring, Video Conferencing, Network Equipment, Server - Stand Alone, Mobile Computing Device, Personal Computer (PC)
Phased ERP conversion from SCT Plus	\$1,172,084	Application Software Acquisition, Development, Modification or Enhancement

Equipment Rotation (Wired and Wireless)	\$975,000	Network
CMMS/Project Mgt software acquisition, modification and development as required.	\$775,000	Application Software Acquisition, Development, Modification or Enhancement

5) 760 University of Oklahoma \$37,224,092 (Total)  
Planned Projects \$8,833,098  
Operations Budget \$28,390,994

Project Name	Cost	Categories
New Banner Student Information System Implementation	\$2,471,920	Application Software Acquisition, Development, Modification or Enhancement, Disk Storage, Enterprise Server
Supercomputer Refresh	\$1,999,996	Enterprise Server
eDiscovery Implementation	\$1,520,000	Application Software Acquisition, Development, Modification or Enhancement, Disk Storage
Network Upgrade - Outside Plant	\$1,300,000	Infrastructure Wiring
New Construction Devon Hall	\$750,820	Network, Infrastructure Wiring

**Appendix “A”**  
**Category Totals. All Agencies Planned FY-09 Projects**  
**by Pre-Defined Category**

**Note: Operations Budgets are not included in this section. Listed here are planned projects only.**

# Statewide Category Totals Report

Category Number	Category Description	Total Cost
1	Desktop personal computer including monitor and keyboard. RISC workstations, CAD, stand alone and networked workstations.	\$20,484,865.00
2	Laptop computer, Tablet or similar device utilized for mobile computing.	\$2,663,032.00
3	Blackberry, Palm Pilot, Satellite phone or similar device primarily utilized as Personal Digital Assistant.	\$1,151,244.00
4	Printer (laser, inkjet, impact) not attached to a network but attached directly to a computer (PC, mainframe, enterprise server). Printer does not include a network interface card.	\$307,245.00
5	Printer (laser, inkjet or impact) attached to a network. Printer includes network interface card.	\$1,580,600.00
6	Combination Printer / Fax / Copier / Scanner. Can be standalone or attached to a network.	\$3,062,189.00
7	Server that is rack or cabinet mounted with single or multi-processors.	\$4,694,926.00
8	Server mounted in a Blade Center with single or multi-processors.	\$1,487,395.00
9	Equipment supporting network infrastructure including switches, routers, firewalls and similar devices.	\$5,691,548.00
10	Large, stationary computer capable of storing massive amounts of data, supporting many users simultaneously, and running a wide variety of applications all at one time. May be a new mainframe or mainframe upgrade.	\$1,922,454.00
11	Large, stationary server containing programs that collectively serve the needs of an enterprise rather than a single user, department, or specialized application. May be a new enterprise server or enterprise server upgrade.	\$6,044,627.00
12	Direct Access Storage Device (DASD). Magnetic disk storage device used in mainframe and enterprise server environments. May be new disk storage or disk storage expansion or upgrade.	\$6,272,794.00
13	Software specifically for PC or mobile computing devices. Can include operating system software (Windows 2000, XP, etc.) and application software (Word, Excel, Acrobat, PowerPoint, AutoCAD, etc.)	\$6,915,618.00
14	Software specifically for servers. Can include Windows, Linux, AIX, Novell, Domino/Notes, Microsoft Exchange, and application software for specific agency requirements. Servers can be stand alone, Blade or enterprise servers.	\$11,032,062.00
15	Software specifically for mainframe computers. Can include operating system software (zOS, zLinux, VSE, VM), data base software (DB2, IMS, Oracle), security software (ACF2, etc.), and application software for specific agency requirements.	\$7,683,668.00
16	Application software to meet specific agency requirements. Expenses for acquiring the software or for contracting for the development, modification or enhancement of software owned by the agency.	\$44,594,985.00
17	Expenses for consulting or contracting services for other than software development or modifications. May include PC, network, server, or other support services, special projects, etc.	\$64,351,949.00
30	Central Office line, business line, fractional T1, T1, 800 service or point to point private line	\$6,098,062.00
31	Mobile radio, walkie talkie, base station, tower, satellite	\$3,078,006.00

32	Attendant positions, wired telephone instruments, wireless telephone instruments, voice mail systems, interactive voice response systems, conference telephones, PBX, VOIP	<b>\$8,410,205.00</b>
33	De-install of phone system from one address and install at another address	<b>\$284,113.00</b>
34	Televideo equipment, monitors	<b>\$7,340,264.00</b>
40	Internal and external wiring supporting telecommunications. This includes fiber optic (singlemode and multimode), alarm systems, and Cat 5/6 wiring	<b>\$10,820,115.00</b>
41	Routers, layer 2/3 switches, wave division multiplexing, SONET, TDM carriers, DS-3 or greater transceivers/equipment	<b>\$9,097,841.00</b>
42	Firewalls, intrusion detection, security software, security appliances, sniffer systems, traffic analyzers, and analysis software	<b>\$2,802,175.00</b>
43	Modem pools, remote access servers	<b>\$388,000.00</b>
44	Upgrades, purchases	<b>\$893,057.00</b>
45	Local trunks, long distance services, special circuits, 800 numbers, contractual employees etc.	<b>\$7,328,198.00</b>
<b>2009 Grand Total Cost</b>		<b>\$246,481,237.00</b>

Printed on Sep 4, 2008

# **Appendix "B"**

## **Budget Report. Summary of Agencies, FY-09 Planned Spend**

**NOTE:** The following information is organized by State Agency for each budget function. Projects are listed by categories under each division, for planned expenditures. A summary is provided at the end of each Agency, indicating the total planned project expenditures and the Information Technology and Telecommunications operations budgets.

# OSF IT&T Reporting: Budget Report

## Budget Report for FY 2009

### 010: Oklahoma State University

1 : Agency Projects	0.00
1 : Career Services	31,300.00
1: Personal Computer (PC)	21,000.00
13: Desktop Software	1,600.00
16: Application Software Acquisition, Development, Modification or Enhancement	6,200.00
2: Mobile Computing Device	2,500.00
2 : Inst for Teaching and Learning Excellence	4,239,004.00
1: Personal Computer (PC)	235,500.00
13: Desktop Software	6,000.00
14: Server Software	105,000.00
2: Mobile Computing Device	2,500.00
30: Leased Circuits	16,500.00
34: Video Conferencing	3,616,314.00
40: Infrastructure Wiring	19,500.00
7: Server - Stand Alone	150,800.00
8: Blade Server	75,000.00
9: Network Equipment	11,890.00
3 : Library	6,388,000.00
1: Personal Computer (PC)	30,000.00
12: Disk Storage	60,000.00
13: Desktop Software	40,000.00
14: Server Software	20,000.00
17: Consulting Services	6,000,000.00
2: Mobile Computing Device	60,000.00
3: Mobile Telecommunications Device	10,000.00
34: Video Conferencing	5,000.00
4: Standalone Printer	13,000.00
40: Infrastructure Wiring	10,000.00
5: Network Printer	40,000.00
7: Server - Stand Alone	30,000.00
8: Blade Server	60,000.00
9: Network Equipment	10,000.00
4 : Physical Plant Services CIS	922,800.00
1: Personal Computer (PC)	30,000.00
13: Desktop Software	37,800.00
16: Application Software Acquisition, Development, Modification or Enhancement	775,000.00

2: Mobile Computing Device	15,000.00
4: Standalone Printer	3,000.00
5: Network Printer	30,000.00
6: Multi Function Device	2,000.00
7: Server - Stand Alone	20,000.00
9: Network Equipment	10,000.00
<b>5 : Student Union Admin Services</b>	<b>67,000.00</b>
1: Personal Computer (PC)	47,000.00
12: Disk Storage	10,000.00
14: Server Software	5,000.00
5: Network Printer	5,000.00
<b>7 : Information Tech</b>	<b>7,571,083.00</b>
10: Mainframe Computer	540,172.00
11: Enterprise Server	349,000.00
12: Disk Storage	466,824.00
14: Server Software	400,000.00
16: Application Software Acquisition, Development, Modification or Enhancement	1,684,483.00
17: Consulting Services	100,000.00
30: Leased Circuits	225,000.00
32: Voice Systems	348,952.00
40: Infrastructure Wiring	491,764.00
41: Network	1,555,000.00
42: Security - Data and Telecom related	150,000.00
44: Telecommunications Software	125,000.00
45: Telecommunications Services	900,000.00
9: Network Equipment	234,888.00
<b>8 : University Health Services</b>	<b>35,000.00</b>
16: Application Software Acquisition, Development, Modification or Enhancement	35,000.00
<b>9 : VP for Research</b>	<b>91,100.00</b>
1: Personal Computer (PC)	10,000.00
12: Disk Storage	4,000.00
13: Desktop Software	2,500.00
14: Server Software	1,100.00
16: Application Software Acquisition, Development, Modification or Enhancement	20,000.00
2: Mobile Computing Device	2,500.00
4: Standalone Printer	500.00
7: Server - Stand Alone	33,000.00
9: Network Equipment	17,500.00
<b>14 : Police/Public Safety</b>	<b>322,000.00</b>
1: Personal Computer (PC)	10,000.00
13: Desktop Software	5,000.00

14: Server Software	3,000.00
