

DIRECTIONS TO DROP BOX (At the Will Rogers Building)

Approaching the Capitol Complex from the South

When coming from the south on Lincoln Boulevard and approaching the State Capitol Complex, you should stay in the left hand lane and look for signs for State Office Buildings, and specifically for the Will Rogers Building. Just as you are passing the Hodge Building you will exit to the left to get on the service road that partially circles all four of the main state office buildings. When you get to the 3-way stop sign, continue straight on the service road instead of coming to the Hodge Building parking lot. About 50 yards past the intersection bear left and continue on the service road as it turns north to your destination. When you get to a crossing street, come to a full stop and look to your right for exiting traffic. Then continue in to the parking lot for the Will Rogers Building. The Drop Box is in the parking lot but close to the middle of the building and the entrance.

Call 521-2387 if you need further assistance.

Approaching the Capitol Complex from the North

When coming from the north on Lincoln Boulevard and approaching the State Capitol Complex, you should stay in the left hand lane and look for signs for State Office Buildings, and specifically for the Will Rogers Building. Just as you are nearing the Hodge and Connors Buildings exit, stay on southbound Lincoln for a short distance until you get to the Will Rogers and Sequoyah building exit to the left. The Will Rogers parking lot is just past the service road that runs east/west between the four buildings. Continue into the parking lot for the Will Rogers Building. The Drop Box is in the parking lot but close to the middle of the building and the entrance.

Call 521-2387 if you need further assistance.
