

Key Holder

People with impaired hand function achieve a better grip and more force when using this key holder.

Materials:

- 1 – Wooden Dowel or PVC pipe (approx. 6 in. length & ½ inch diameter)
- 1 – Screw (½ inch)
- Screwdriver
- Key

Directions:

1. Pre-drill a small hole in the middle of the dowel
2. Line up the middle hole of the key with the pre-drilled hole
3. Use screwdriver to tighten screw into dowel or pvc pipe

Purchase Price: \$5.99

Make-N-Take Price: \$1.25

Helpful Hint: No drill? Ask at a home improvement store to help pre-drill the holes or use a hammer and nail to start a small hole for the screws.
