

The assistive technology (AT) assessment kit may be used for device demonstrations (also known as assessments). An assessment compares the features and benefits of a particular AT device or category of devices for an individual or small group of individuals (or family). The purpose of an assessment is to enable the individual to make an informed decision.

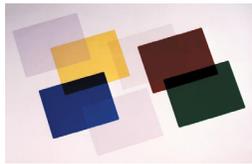

The following inventory list includes some of the types of AT devices found in the SoonerStart kits. Every quarter, SoonerStart teams submit their demonstrations to Oklahoma ABLE Tech for the opportunity to win additional kit items of their choice. Therefore, kits may include an additional array of AT devices such as iPads, positioning and mobility devices, and daily living equipment.

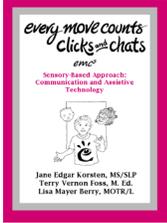

Category	Description	Accessories
AAC - Communication	7-Level Black Communication Builder 	1, 2, 4, 8, 16 Grids
AAC - Communication	Voice Pal 8K 	1 Taction Pad
AAC - Communication	BIGmack - Red 	1 Cable, Instruction Book
