WebAIM www.webaim.org

WebAIM has provided comprehensive web accessibility solutions since 1999. These years of experience have made WebAIM one of the leading providers of web accessibility expertise internationally. WebAIM is a non-profit organization within the Center for Persons with Disabilities at Utah State University.

WebAIM's mission is to expand the potential of the web for people with disabilities by providing the **knowledge, technical skills, tools, organizational leadership strategies,** and **vision** that empower organizations to make their own content accessible to people with disabilities.

- Providing **services** directly to organizations
- Developing **software tools**
- Creating **instructional media**
- Fostering an active **online community** and exchange environment
- Engaging in **research**, and
- Participating in **policy dialogues** and processes.

WebAIM is committed to the development and proliferation of accessible web content and technologies worldwide. We value the principles of volunteerism and the importance of making contributions above our own funding streams. To that end, WebAIM donates 10% of staff time to initiatives within the accessibility community.

Areas of Focus

WebAIM seeks to influence the accessibility of the internet in all sectors, including: government, non-profit, education, business, health care.

WebAIM has provided services and products to a wide variety of clients and partners from business, government, and K-12 and higher education. Our work includes web site evaluation, site design, training, and web accessibility consulting.

Jared Smith - Associate Director

Bio: Jared Smith is the Associate Director of WebAIM. He is a highly demanded presenter and trainer and has provided web accessibility training to thousands of developers throughout the world. With a degree in Marketing/Business Education, a Master's Degree in Instructional Technology, and over 13 years' experience working in the web design, development, and accessibility field, he brings a wealth of knowledge and experience that is used to help others create and maintain highly accessible web content. Much of his written work, including a broad range of tutorials, articles, and other materials, is featured on the WebAIM site. Jared is active on twitter at [@jared_w_smith](https://twitter.com/jared_w_smith).

Jonathan Whiting - Director of Training and Evaluation

Bio: Jonathan B. Whiting, M.S. has been working with WebAIM since February 2003. His current position is Training and Website Evaluation Specialist. Jonathan has helped various organizations create a more accessible Web presence by providing on-site training, by evaluating the accessibility of their Web sites and by guiding them through the creation of a system-wide accessibility policy. He has also been invited to give presentations and workshops at internationally-attended conferences. Jonathan has written several articles and tutorials featured both on the WebAIM Web site and in their training guide. In 2004, he also supervised the design and development of the WebAIM Coordination and Leadership Training Event as well as the creation of the subsequent CD-ROM. Mr. Whiting received a Masters of Science in Instructional Technology from Utah State University and a Bachelors of Arts in Spanish from Brigham Young University. His professional interests include Universal Design for Learning (UDL), accessibility barriers for non-English speakers (including the Deaf), and the relationship between usability and accessibility on the Web. On a personal note, Jonathan enjoys spending time outside. During the summer, you will often find him riding his bike to and from work, and walking or playing in the park with his wife and children. Jonathan is also fluent in Spanish.
