

OKLAHOMA AGRABILITY PROJECT

Promoting Success in Agriculture
For Farmers, Ranchers, and their Families

Mission

To enable a **lifestyle of high quality** for **farmers, ranchers,** and other **agriculture workers with disabilities** so that they, their **families** and their **communities** continue to **succeed in rural America.**

The AgrAbility Project was established in 2002. It supports the rehabilitation and assistive technology needs of Oklahoma farmers, ranchers and their families who have been impacted by disabilities and face barriers to continuing participation in agriculture.

AgrAbility Services Available

Through our three priorities, the Oklahoma AgrAbility Project strives to provide education, direct assistance and networking services in an effort to support farmers and ranchers with disabilities as well as their families.

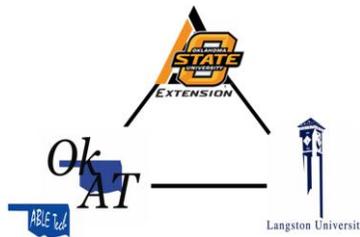

- **Education:** Involve community and health care professionals in accommodating farm and home needs for rural farmers and ranchers that are in need of service.
- **Direct Assistance:** Assist farmers and ranchers, onsite or by phone, with immediate needs that will allow them to continue to farm successfully.
- **Networking:** Expand program through mutually sharing information and resources with individuals and organizations.

Assistive Technology is any service that **directly assists** a **person with a disability** in the **selection, acquisition, or use** of an **assistive technology device**.

Assistive Technology Tools:

- Nailing Hammer
- Peta Easi-Grip Garden Tools
- Needle Guide & Magnifier
- T-Grip Ergonomic Handle
- Outside Faucet Turner
- D-Grip Ergonomic Handle
