

JOHN'S STORY

John was injured in a farming accident in 2004 that damaged his spinal cord.

Oklahoma AgrAbility collaborated with the Oklahoma Department of Rehabilitation Services to provide John with a Journeyman scooter from Life Essentials, a tractor lift and vehicle hand controls to help him effectively manage his operation and complete his farm work.

John has been working in agriculture for more than 32 years and operates nearly 700 acres in northwest Oklahoma. He raises cattle and produces wheat, alfalfa, milo and soybeans.

“What the Department of Rehabilitation Services has done for me as far as financing cannot be appreciated enough,” John said.

“AgrAbility has meant a great deal to me; I am not sure I would be where I am today without their help. Their involvement has helped me to keep going physically, as well as mentally.”
