

May 23, 2013

CEO/President:

Due to the catastrophic events of this week in Moore, Oklahoma, the Moore Public School System is unable to generate an ACH payroll file that was intended to be effective on 05/24/13. Moore Schools Treasurer, Norman Dean, indicates that technology will be restored in time to allow for an ACH payroll file transmission effective 05/30/13.

As Oklahoma Bank Commissioner, I am asking that if you have customers/depositors that are employees of the Moore, Oklahoma public school system and who would be receiving a payroll deposit tomorrow, that you consider providing provisional credit until their payroll deposit arrives on 05/30/13. The provisional credit amount could be based on the employee's most recent ACH deposit (dated May 15, 2013). Otherwise, please reach out to your customers from Moore Public Schools to discuss other ways of accomodating them.

Thank you for your attention to this matter.

Mick Thompson
