

More Frequently Asked Questions

How are bowling alleys affected?

Bowling alleys, like most other businesses that are open to or used by the public, must be smokefree. Bowling alleys are not exempted under the new laws, even if they serve food or beverage.

Copies of Oklahoma's secondhand smoke laws, a summary of the laws and related information can be found at an internet web site maintained by the Oklahoma State Department of Health: www.breatheeasyok.com. Or these materials can be provided by mail upon telephone request to the toll-free number 1-866-ONLY AIR (1-866-665-9247).
