

APPENDIX A – CURRENT VALIDATIONS

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	DaysInSession is out of range.	2	The Days In Session describes the total number of school days for this calendar. This warning is because that total number of days is either 1. Larger or smaller than is expected for the total number of school days, or 2. The total days listed here will not fit inside of the First Instruction Date and Last Instruction Date. Please correct the Days In Session to be the total school days for this calendar OR correct the First and Last Instruction Dates to increase the range.
CalendarSummary	DaysInSession was not provided.	2	The Days In Session describes the total number of school days for this calendar. Please provide the Days In Session by entering this information on the Calendar in your local student information system.
CalendarSummary	EndDate is out of range.	2	This warning is because an end date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this end date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the End Date falls out side of that fiscal year range for the school year supplied. Check the Calendar and make sure that the Start and End Dates fall inside the fiscal year.

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	EndDate was not provided.	2	The End Date for this calendar was not provided. The Calendar contains two "ending" dates. The End Date and the Last Instruction Date. The End Date typically falls after the the last day of instruction to account for other days that may exist in the calendar after school actually ends such as professional days. Any day you would keep track of on the Calendar would fall between the Start and End date of the calendar. In this particular instance, the End Date was not provided. Please provide an end date for this calendar in your local student information system. This is not a common error. You may want to work with your local student information system vendor to see why this element is not being sent or how to properly correct this issue.
CalendarSummary	FirstInstructionDate is out of range.	2	This warning is because the first day of instruction date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this first instruction date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the First Instruction Date falls out side of that fiscal year range for the school year supplied. Check the Calendar and make sure that the First Instruction and Last Instruction Dates fall inside the fiscal year.
CalendarSummary	FirstInstructionDate was not provided.	2	The First Instruction Date is the first day of school. This element was not provided. Please make sure the First Day of Instruction is on the calendar in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	GradeLevel_Code is invalid.	1	GradeLevel_Code is invalid.
CalendarSummary	GradeLevel_Code was not provided.	1	The Grade Levels associated with this Calendar were not provided. This is not a common warning. Please work with your local student information system vendor to determine why the grade levels associated with this calendar are not being sent.
CalendarSummary	GraduationDate is out of range.	1	GraduationDate is out of range.
CalendarSummary	InstructionalMinutes is invalid.	2	The Instructional Minutes is the total number of instructional minutes for this calendar for the entire school year. As an example, if you were in session for 300 instructional minutes each day for 180 days, your Instructional Minutes value would be 54000 ($300 \times 180 = 54000$). This is commonly keyed in as the instructional minutes for one day rather than the instructional minutes for the entire school year. Please correct the Instructional Minutes for this calendar in your local student information system.
CalendarSummary	InstructionalMinutes was not provided.	2	The Instructional Minutes is the total number of instructional minutes for this calendar for the entire school year. As an example, if you were in session for 300 instructional minutes each day for 180 days, your Instructional Minutes value would be 54000 ($300 \times 180 = 54000$). This element has not been provided. Please enter the Instructional Minutes for this calendar in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	LastInstructionDate is out of range.	2	This warning is because the last day of instruction date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this last instruction date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Last Instruction Date falls out side of that fiscal year range for the school year supplied. Check the Calendar and make sure that the First Instruction and Last Instruction Dates fall inside the fiscal year.
CalendarSummary	LastInstructionDate was not provided.	2	The Last Instruction Date is the last day of school. This element was not provided. Please make sure the Last Day of Instruction is on the calendar in your local student information system.
CalendarSummary	LocalId was not provided.	1	LocalId was not provided.
CalendarSummary	MinutesPerDay is invalid.	2	The Minutes Per Day is the number of minutes in the day in which the school is normally in session. The Minutes Per Day must be at least 150 which is typical for a Pre-Kindergarten Half Day Calendar, but is normally higher than that for an average school day. You are receiving this warning because your minutes per day is lower than 150. Please correct by entering the correct minutes per day for this calendar in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	MinutesPerDay was not provided.	2	The Minutes Per Day is the number of minutes in the day in which the school is normally in session. The Minutes Per Day must be at least 150 which is typical for a Pre-Kindergarten Half Day Calendar, but is normally higher than that for an average school day. You are receiving this warning because your minutes per day for this Calendar has not been provided. Please enter the correct minutes per day for this calendar in your local student information system.
CalendarSummary	SchoolYear is invalid.	1	SchoolYear is invalid.
CalendarSummary	SchoolYear was not provided.	2	SchoolYear was not provided.
CalendarSummary	SIF_ExtendedElement (LunchMinutes) was not provided.	2	This warning refers to the Lunch Minutes. This is the number of minutes designated for lunch for this calendar. Please provide the lunch minutes by entering that data into your local student information system for this calendar.
CalendarSummary	StartDate is out of range.	2	This warning is because a start date for this calendar falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this start date to be out of the range of that normal year. There is another element supplied with the Calendar Summary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Start Date falls out side of that fiscal year range for the school year supplied. Check the Calendar and make sure that the Start and End Dates fall inside the fiscal year.

Object Type	Error Description	Validation Level	Friendly Description
CalendarSummary	StartDate was not provided.	2	<p>The Start Date for this calendar was not provided. The Calendar contains two "beginning" dates. The Start Date and the First Instruction Date. The Start Date typically falls earlier than the first day of instruction to account for other days that may exist in the calendar before school actually begins such as professional days. Any day you would keep track of on the Calendar would fall between the Start and End date of the calendar. In this particular instance, the Start Date was not provided. Please provide a start date for this calendar in your local student information system. This is not a common error. You may want to work with your local student information system vendor to see why this element is not being sent or how to properly correct this issue.</p>
LEAInfo	County/DistrictCode/ZoneTag mismatch.	1	<p>The County/District Code you provided for your District (LEA) does not match the Accredited County/District Code assigned to your LEA.</p> <p>Example: Oklahoma City should have a StateProvinceId of 551089. The County = 55, The District = 1089.</p> <p>Inside of your local student information system, find the location where you input the County/District code for you district and change it to the correct county/district code assigned by the SDE Accreditation Office. It should not contain any spaces or special characters.</p>
LEAInfo	GradeLevel_Code is invalid.	1	GradeLevel_Code is invalid.

Object Type	Error Description	Validation Level	Friendly Description
LEAInfo	StateProvinceId is invalid.	1	The StateProvinceId for the LEAInfo is the concatenation of the County Code and the District Code (e.g. 551089; County = 55, District = 1089). This is not a common issue. Please work with your student information system vendor to send this element correctly to the state. It is possible it was keyed in incorrectly in your local system. Your vendor will be able to assist you in how to correct this element.
SchoolCourseInfo	CoreAcademicCourse was not provided.	1	The CoreAcademicCourse indicator describes whether or not this course meets the state definition of a core academic course. Please enter this in your local student information system for this course.
SchoolCourseInfo	CourseCredits was not provided.	1	The Course Credits was not provided. Please enter course credits for this course in your local student information system. If credit is not being offered, enter zero.
SchoolCourseInfo	CourseTitle was not provided.	1	The CourseTitle or name of the course was not provided. Please give this course a name in your local student information system.
SchoolCourseInfo	SchoolYear is invalid.	1	SchoolYear is invalid.
SchoolCourseInfo	StateCourseCode is invalid.	1	The State Course Code (Oklahoma Cost Accounting System (OCAS) Code or Career Tech code) supplied for this course is not a valid OCAS or Career Tech Code. Please enter a valid OCAS or Career Tech code in your local student information system. If this course is a schedule filler such as "Planning Period" or "Lunch", make sure that credits are equal to zero and give it a state course code of four zeros "0000" and the Wave validation system will ignore it. The list of course codes can be found on the Wave Web site by going to "Documents" located under "Resources."

Object Type	Error Description	Validation Level	Friendly Description
SchoolCourseInfo	StateCourseCode was not provided.	1	The State Course Code (Oklahoma Cost Accounting System (OCAS) Code or Career Tech code) was not supplied for this course. Please enter a valid OCAS or Career Tech code in your local student information system for this course. If this course is a schedule filler such as "Planning Period" or "Lunch", make sure that credits are equal to zero and give it a state course code of four zeros "0000" and the Wave validation system will ignore it. The list of course codes can be found on the Wave Web site by going to "Documents" located under "Resources."
SchoolInfo	GradeLevel_Code is invalid.	1	GradeLevel_Code is invalid.
SchoolInfo	GradeLevel_Code field was not provided.	1	The Grade Levels (e.g. PK, KG, 01, 02, etc.) were not provided for this school. Please make sure the Grade Levels offered by this school are entered in your local student information system. This is not a common warning. You may need to work with your local student information system vendor to see why grade levels are not be sent to the Wave.
SchoolInfo	GradeLevel_Codes were not provided.	1	The Grade Levels (e.g. PK, KG, 01, 02, etc.) were not provided for this school. Please make sure the Grade Levels offered by this school are entered in your local student information system. This is not a common warning. You may need to work with your local student information system vendor to see why grade levels are not be sent to the Wave.
SchoolInfo	LEAInfoRefId field was not provided.	1	The LEAInfoRefId is the link from this school to the District record. This is not a common issue and is almost always a vendor related issue. Please work with your student information system vendor to have this set up

Object Type	Error Description	Validation Level	Friendly Description
			properly. This is NOT something you can key in to correct.
SchoolInfo	NCESId field was not provided.	1	<p>The NCESId is the National Center for Educational Statistics ID assigned by NCES for this School. You can find the NCES ID for your schools by going to: http://nces.ed.gov/globallocator/</p> <p>Enter this schools NCES ID in your local student information system. Note: If this is a new school, it can take up to one year following this schools first reporting of its October 1 report to have an NCES ID assigned. This warning can remain in place for new schools for a year and it will not affect reporting.</p>
SchoolInfo	OperationalStatus field is invalid.	1	OperationalStatus field is invalid.
SchoolInfo	SchoolName field was not provided.	1	SchoolName field was not provided.
SchoolInfo	SessionType field was not provided.	1	The SessionType refers to the way this school sets up their main terms. Is this school run in semesters, trimesters, quarters. Make sure the primary session type for this school is entered in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
SchoolInfo	StateProvinceld field is invalid.	4	<p>The StateProvinceld field on the SchoolInfo object is the concatenation of the county, district, and site code (e.g. 551089105 would refer to County (55), Oklahoma City Public Schools (1089), Elementary School (105)). This is not a common error. Students are sent to the Wave and are associated to the proper accredited site using this element. If this element is not the code of an accredited school, the students associated with this school will not appear on any report. Here are some of the common reasons why an Invalid StateProvinceld would be sent.</p> <ol style="list-style-type: none"> 1. The information was keyed in incorrectly. Please make certain the information was typed in correctly in your system. 2. This particular school is an alternative education school where alt ed students are tracked separate of other students. That is not a problem, but the way in which they are being reported to the Wave is an issue. There are multiple ways this can be corrected, but each way is specific to how your student information sytem vendor handles reporting this element to the Wave. It may be as simple as changing the code to the correct code for this school. It may be that you have to map or bold this site to its accredited site. Or there may be another method for reporting this correctly. <p>In this instance, the best solution would be to determine who the students are attending this school and what accredited site they should be reported through, then contact your student information system vendor to see how that can be done correctly.</p>

Object Type	Error Description	Validation Level	Friendly Description
SchoolInfo	StateProvinceld field was not provided.	4	The StateProvinceld field on the SchoolInfo object is the concatenation of the county, district, and site code (e.g. 551089105 would refer to County (55), Oklahoma City Public Schools (1089), Elementary School (105)). This is not a common error. Please work with your student information system vendor to make sure you have your district and schools set up properly. Without this element, it is impossible to know which school to associate students to for reporting purposes. Any student attending this school will NOT appear on any report until this StateProvinceld is filled in and sent to the Wave.
SchoolInfo	Title1Status field was not provided.	1	The Title I Status for the School was not provided. The Title I Status of the school can be one of three values: 1. Targeted - Certain students enrolled in the school are eligible for Title I programs. 2. SchoolWide - All students in the school are eligible for Title I programs. 3. NA - Not applicable, the school is not eligible for Title I programs. Please make sure the Title I Status for this school is reported in your local student information system.
SectionInfo	Localld was not provided.	1	Localld was not provided.
SectionInfo	LocationOfInstruction_Code was not provided.	1	The Location of Instruction describes "where" this course section meets or is taught. The location includes: In School, Home, Hospital, Community facility, Business as well as other types of instruction. Please make sure a location of instruction is provided in your local student information system for this course section.

Object Type	Error Description	Validation Level	Friendly Description
SectionInfo	MediumOfInstruction_Code was not provided.	1	The Medium of Instruction describes the type of instruction provided in or out of the classroom for this particular course section. This includes face-to-face instruction, virtual/on-line distance learning, technology-based instruction in the classroom, as well as other types of instruction. The complete list along with descriptions can be found in section 7.18 of the 2.x Wave Requirements document. Please make sure a medium of instruction is provided in your local student information system for this course section.
SectionInfo	ScheduleInfo was not provided.	1	The scheduling information for this particular course section was not provided. The scheduling information includes elements such as the day it meets, the period it meets, the room it meets in, and the teacher assigned to that course section. Please make sure this information is entered in your local student information system for this course section.
SectionInfo	SchoolYear is invalid.	1	SchoolYear is invalid.
SectionInfo	StaffPersonalRefId was not provided.	1	The Teacher associated with this particular course section was not provided. Please make sure a teacher is associated with this course section in your local student information system.
SectionInfo	StateCourseCodeOverride is invalid.	1	StateCourseCodeOverride is invalid.
SectionInfo	SummerSchool was not provided.	1	SummerSchool was not provided.
SectionInfo	TermInfoRefId was not provided.	1	

Object Type	Error Description	Validation Level	Friendly Description
StaffPersonal	First Name invalid for this certificate.	3	<p>The Wave system compares the First Name, Last Name and Teaching Certificate Number supplied by your local student information system against the same fields in the Oklahoma Educators Credentialing System (OECS). In this case, the First Name supplied from your local system does not match the First Name in the OECS system for that teaching certificate number. This can be corrected in one of three ways. 1. Check that the certificate number you have entered is correct for this teacher. 2. Correct the first name in your local system to match the first name in the OECS system. 3. Have the teacher log in to the OECS system and correct their first name to match what is in the local student information sytem at your district (Note: If the teacher elects to change their name in the OECS system, they are NOT required to purchase a new teaching certificate).</p>
StaffPersonal	FirstName is invalid.	3	<p>The First Name entered for this staff member is invalid. This can be resolved by correcting the name in your local student information system.</p> <p>Reasons why the First Name may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 3. It contains two names separated by more than one space. 4. It contains three of the same characters in a row (e.g. Matththew which contains the letter "t" three times)

Object Type	Error Description	Validation Level	Friendly Description
			5. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
StaffPersonal	FirstName was not provided.	3	The First Name of this staff member was not provided. Please provide the first name by keying it into your local student information system. Note: If this "staff member" is a filler such as "College Teacher", it can be set to be ignored by our validation by giving this "staff member" a teaching certificate number of six nines (999999). This should only be used in instances where the "staff member" is not a teacher.
StaffPersonal	LastName is invalid.	3	<p>The Last Name entered for this staff member is invalid. This can be resolved by correcting the name in your local student information system.</p> <p>Reasons why the Last Name may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (.). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 3. It contains two names separated by more than one space. 4. It contains three of the same characters in a row (e.g.

Object Type	Error Description	Validation Level	Friendly Description
			<p>Matthew which contains the letter "t" three times) 5. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")</p>
StaffPersonal	LocalId was not provided.	1	LocalId was not provided.
StaffPersonal	Teacher Certificate Number is invalid.	3	<p>The Teaching Certificate Number provided on this record is not a valid number in the Oklahoma Educators Credentialing (OECS) system. Please correct the number for this staff member. Note: If this staff member is not a teacher, please enter the Teaching Certificate Number as 999999. This record will then be ignored by the Wave validation process.</p>
StaffPersonal	Teacher Certificate Number was not provided.	3	<p>The Teaching Certificate Number has not been provided. In the Wave this is the StaffPersonal/StateProvinceId. In your system it may have a different name. Please provide the teaching certificate number for this staff member by keying it into your local student information system. Note: If this staff member is not a teacher, please enter the Teaching Certificate Number as 999999. This record will then be ignored by the Wave validation process.</p>

Object Type	Error Description	Validation Level	Friendly Description
StudentAttendanceSummary	CalendarSummaryRefId was not provided.	3	The CalendarSummaryRefID is a link between the Enrollment of this student, the Calendar they are on and the Attendance object. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.
StudentAttendanceSummary	DaysAttended was not provided.	3	DaysAttended was not provided.
StudentAttendanceSummary	DaysInMembership was not provided.	3	DaysInMembership was not provided.
StudentAttendanceSummary	DaysTransportedEligibleStateAid was not provided.	3	This is the total number of days the student was transported where he/she was eligible for state aid for this particular attendance period. This element was not provided. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.
StudentAttendanceSummary	EndDate is out of range.	3	This warning is because an end date for this student attendance summary falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this end date to be out of the range of that normal year. There is another element supplied with the StudentAttendanceSummary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the End Date falls out side of that fiscal year range for the school year supplied. You will need to work with your student information system vendor to resolve this

Object Type	Error Description	Validation Level	Friendly Description
			issue as the dates are a calculation created in their system.
StudentAttendanceSummary	EndDay was not provided.	3	EndDay was not provided.
StudentAttendanceSummary	ExcusedAbsences was not provided.	2	ExcusedAbsences was not provided.
StudentAttendanceSummary	FTE is invalid.	1	FTE is invalid.
StudentAttendanceSummary	Resident was not provided.	2	Resident was not provided.
StudentAttendanceSummary	SchoolYear is invalid.	1	SchoolYear is invalid.
StudentAttendanceSummary	SchoolYear was not provided.	3	SchoolYear was not provided.
StudentAttendanceSummary	StartDate is out of range.	3	This warning is because an start date for this student attendance summary falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this start date to be out of the range of that normal year. There is another element supplied with the StudentAttendanceSummary that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Start Date falls out side of that fiscal year range for the school year supplied. You will need to work with your student information system vendor to resolve this issue as the dates are a calculation created in their system.

Object Type	Error Description	Validation Level	Friendly Description
StudentAttendanceSummary	StartDay was not provided.	3	StartDay was not provided.
StudentAttendanceSummary	StudentSchoolEnrollmentRefId was not provided.	3	The StudentSchoolEnrollmentRefId is a link between this attendance summary, the student and the school the student attends. This element was not provided. This warning is likely not something you will be able to correct without the assistance of your student information system vendor. Please contact your vendor to have them send this element properly.
StudentAttendanceSummary	UnexcusedAbsences was not provided.	2	UnexcusedAbsences was not provided.
StudentContact	First name is invalid.	1	<p>A contact associated with this Student has a First Name that was entered incorrectly into your local student information system. You can view the name of the Contact by clicking the "SIF XML" link on the record. To correct this, go to your local Student Information System, find this contact and correct the First Name.</p> <p>Reasons why it may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (.). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 3. It contains two names separated by more than one space. 4. It contains three of the same characters in a row (e.g. Matthew which contains the letter "t" three times) 5. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")

Object Type	Error Description	Validation Level	Friendly Description
StudentContact	FirstName was not provided.	1	A contact associated with this student is missing a First Name. You can view information about the contact by clicking the "SIF XML" link. To correct, enter the First Name of the contact in your local student information system.
StudentContact	Last name is invalid.	1	<p>A contact associated with this Student has a Last Name that was entered incorrectly into your local student information system. You can view the name of the Contact by clicking the "SIF XML" link on the record. To correct this, go to your local Student Information System, find this contact and correct the Last Name.</p> <p>Reasons why it may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (.). StudentContact	Name_Type was not provided.	1	<p>A contact associated with this student does not have a Name Type.</p> <p>The Name_Type is an indication of the type of name being sent such as (legal name, alias name, etc.). This code should be supplied by your student information system vendor to the Wave with any name that is provided. If you have an option to select the type of name in your system, indicate that for this contact. If you do not have an option to indicate the type of name, you will need to contact your local student information system vendor to let them know the name type is not being supplied with this record.</p>

Object Type	Error Description	Validation Level	Friendly Description
			To view the specific contact in question, click the "SIF XML" link.
StudentContact	Relationship_Code was not provided.	1	<p>A contact associated with this student did not have the relationship code provided. The relationship code shows the relation between the contact and the student (e.g. 1734 = Mother, natural/adoptive). To correct, enter a relationship for this contact in your local student information system.</p> <p>To view information about the specific contact in question, click the "SIF XML" link.</p>
StudentContact	Suffix is invalid.	1	A contact associated with this student has an invalid suffix. Expected values would be similar to (Jr, Jr., Sr., I, II, III, etc.) To view the value sent, click on the "SIF XML" link and find the "Suffix." To correct, modify the suffix in your local student information system for this contact.
StudentPersonal	Address City was not provided.	1	The Address provided for this student does NOT contain a City. In your local student information system, find the address for the student and input the city. Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a city.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Address Country was not provided.	1	<p>The Address provided for this student does NOT contain a Country In your local student information system, find the address for the student and input the Country Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a Country.</p> <p>Note: Sometimes Student Information Systems default the Country as US. If you cannot find the location for the Country in your SIS or if you are seeing this Warning for all of your students, you will want to contact your local Student Information System provider to correct this issue.</p>
StudentPersonal	Address Line1 was not provided.	1	<p>The Address provided for this student does NOT contain the "Line1"(Street Number/Street Name or PO BOX). In your local student information system, find the address for the student and input the "Line1." Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a "Line1."</p>
StudentPersonal	Address PostalCode is invalid.	1	<p>The Address provided for this student contains a PostalCode (Zip Code) that was keyed in incorrectly. You can view the Postal Code supplied by clicking the "SIF XML" link. To correct this issue, find the student's address inside your local Student Information System and correct the Postal Code.</p>
StudentPersonal	Address PostalCode was not provided.	1	<p>The Address provided for this student does NOT contain a Postal Code. In your local student information system, find the address for the student and input the Postal Code. Note: Some systems provide the address of the</p>

Object Type	Error Description	Validation Level	Friendly Description
			main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a Postal Code.
StudentPersonal	Address record was not provided.	1	<p>No Address record was supplied for this student. In your local student information system, verify that an address has been keyed in.</p> <p>Note: Some Student Information Systems send the address of the main parent/legal guardian. Verify that the address for the primary guardian for this student is filled in.</p>
StudentPersonal	Address State is invalid.	1	<p>The Address provided for this student contains a State Code (e.g. OK, TX) that is invalid. You can view the State Code supplied by clicking the "SIF XML" link. To correct this issue, find the student's address inside your local Student Information System and correct the State Code.</p> <p>The State Code should be two Upper Case letters and comply with the USPS postal code abbreviation standards.</p>
StudentPersonal	Address State was not provided.	1	The Address provided for this student does NOT contain a State. In your local student information system, find the address for the student and input the State. Note: Some systems provide the address of the main parent/guardian as the student's address. Check to make certain the primary guardian's address contains a State.
StudentPersonal	BirthDate was not provided.	4	The Birth Date of this student was not provided. In your local student information system, find the birth date field for the student and key in the student's birthday.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Country of birth was not provided.	1	The Country of Birth for this student was not provided. In your local student information system, find the location for country of birth and input the student's birth country.
StudentPersonal	DOB is less than 1 day old.	4	The Date of Birth supplied for this student was keyed in incorrectly. To view the Date of Birth supplied, click the "SIF XML" link. Based on the Birth Date supplied, the age of the student would be less than 1 year old. To correct, find the birth date of the student in your local student information system and key in the correct birth date.
StudentPersonal	DOB Not Less Than 26.	4	<p>The date of birth supplied for this student would make the age of the student greater than 26 years old. If the student is not over the age of 26, go to your local school Student Information System and update the Birth Date for this student to the correct Birth Date. This will update our system with 24 hours and this error will be removed.</p> <p>If this is the correct Birth Date and the student is over the age of 26 and is enrolled currently in your school, please contact the OSF Help Desk as we will need further information from you to define the reason why this student would be over age 26 and attending school.</p>
StudentPersonal	EconomicDisadvantage and FreeReduced data does not align.	3	<p>You have supplied Free Reduced data and Economic Disadvantage data on this student that does not align properly.</p> <p>If a student is indicated as Free or Reduced, their Economic Disadvantage indicator should be indicated as "Yes" or true.</p>

Object Type	Error Description	Validation Level	Friendly Description
			To correct this, verify the student is Free or Reduced and then in your local student information system, indicate the student as Economic Disadvantage.
StudentPersonal	EconomicDisadvantage indicator is invalid.	3	The indicator supplied for Economic Disadvantage is not correct. The only valid code for Economic Disadvantage is either "Yes" or "No." The value being sent is "Unknown" To correct this, indicate in your local student information system whether or not this student is Economic Disadvantage.
StudentPersonal	EconomicDisadvantage indicator was not provided.	3	The Economic Disadvantage indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Economic Disadvantage.
StudentPersonal	ELL indicator is invalid.	3	The indicator supplied for ELL (English Language Learner/Limited English Proficient) is not correct. The only valid code for ELL is either "Yes" or "No" The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is ELL.
StudentPersonal	ELL indicator was not provided.	3	The ELL (English Language Learner/Limited English Proficient) indicator for this student has not been supplied. In your local student information system indicate whether or not this student is ELL.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	EnglishProficiency/OtherCode is invalid.	3	<p>The English Proficiency and English Proficiency Other Code identifies information about students who are both ELL (English Language Learners/Limited English Proficient) and Bilingual as well as Native English Speakers.</p> <p>The warning you are receiving indicates the English Proficiency Other Code is invalid for this student. There are two possibilities.</p> <p>1. The Code provide doesn't align properly with the English Proficiency Code provided. For instance, if you supply an English Proficiency Code of 1636 (Redisgnated as fluent English Proficient), a code of 01, 02, 03, 04, 05, or 06 should be supplied as the English Proficiency Other Code. If the English Proficiency Other Code supplied was "NA" it would be flagged as invalid.</p> <p>To view the Codes supplied, click the "SIF XML" link.</p> <p>To view a complete list of codes and descriptions, review the document titled "English Proficiency Codes" located in the "Documents" section under the "Resources" tab on the Wave Web site.</p> <p>2. The code supplied is not a valid code. If you have the ability to hand key enter the codes in your local student information system, correct the codes using the document above. If you do not have the ability to enter the codes and an invalid code was sent, you will need to</p>

Object Type	Error Description	Validation Level	Friendly Description
			contact your local student information system vendor to have the codes sent correctly.
StudentPersonal	EnglishProficiency/OtherCode was not provided.	3	The EnglishProficiency/OtherCode describes both the bilingual status of the student as well as whether or not the student is 1st or 2nd year proficient. Please check that these elements have been keyed in properly in your student information system. It is possible that your system collects this as a single element or as separate elements and then combines them together to send to the Wave. If you have question about how to fill this in inside your local student information system, you will want to contact your vendor to see what elements make up this EnglishProficiency/OtherCode. For a list of the

Object Type	Error Description	Validation Level	Friendly Description
			Wave codes and descriptions for this element, refer to Section 7.17 in the 2.x Wave Requirements Document.
StudentPersonal	EnglishProficiency_Code is invalid.	3	<p>The English Proficiency Code supplied for this student is invalid. It is invalid because it does not align with the ELL (English Language Learner/Limited English Proficient) indicator supplied for this student.</p> <p>Example: If the ELL supplied = Yes, the EnglishProficiency Code should be 2349 (Limited English Proficient/English Language Learner). If the ELL supplied = No, the English Proficiency Code should NOT be 2349.</p> <p>To correct, input the correct English Proficiency Code for this student or correct the ELL indicator supplied in your local student information system.</p> <p>To view the codes supplied, click the "SIF XML" link and find "ELL" and "EnglishProficiency Code."</p>
StudentPersonal	EnglishProficiency_Code was not provided.	3	A code indicating the EnglishProficiency of a student was not provided for this student. To correct this, enter the English Proficiency in your local student information system. To view a list of the English Proficiency Codes and descriptions the state is expecting to receive, refer to the document titled "English Proficiency Codes" located in the "Documents" section under the "Resources" tab on the Wave Web site.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	FirstName is invalid.	4	<p>The First Name entered for this student is invalid. This can be resolved by correcting the name in your local student information system.</p> <p>Reasons why the First Name may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (.). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 3. It contains two names separated by more than one space. 4. It contains three of the same characters in a row (e.g. Matththew which contains the letter "t" three times) 5. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")
StudentPersonal	FirstName was not provided.	4	<p>The First Name of this student was not provided. This can be resolved by entering the legal First Name of the student in your local student information system.</p> <p>Note: Some systems have two locations for the name. One is for the Legal Name, the other is for the name the student goes by. Be sure the Legal Name section is filled out.</p>
StudentPersonal	Gender is invalid.	4	<p>The Gender provided for this student is invalid. A valid gender will indicate either Male (M) or Female (F). To view the code sent for this student, click the "SIF XML" link. Usually this warning is caused by a gender of "U" (Unknown) being sent. This can be resolved by correcting the gender in your local student information system.</p>

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Gender was not provided.	4	The Gender was not provided for this student. This can be resolved by entering the the gender in your local student information system.
StudentPersonal	GiftedTalented indicator is invalid.	3	The indicator supplied for Gifted/Talented is not correct. The only valid code for Gifted/Talented is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Gifted/Talented.
StudentPersonal	GiftedTalented indicator was not provided.	3	The Gifted/Talented indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Gifted/Talented.
StudentPersonal	GraduationDate is invalid.	1	<p>The Graduation Date supplied is invalid. There are several factors weighed when determining whether or not the graduation date is valid and whether or not the school should be supplying the graduation date.</p> <p>Reasons why Graduation Date would be considered invalid:</p> <ol style="list-style-type: none"> 1. The ProjectedGraduationYear supplied is in the future. If the student is projected to graduate in a future year, they should not have a graduation date for the current year. 2. The student has exited your district and the exit code supplied does not indicate graduated or suspension. If the student is suspended, they could still receive services and graduate. If the exit code indicates graduated, then there would not be an issue. The exit code supplied by your system however indicates the student has left your school to attend another district or other form of education. This would indicate they could not graduate

Object Type	Error Description	Validation Level	Friendly Description
			<p>from your school making the graduation date invalid.</p> <p>3. The Graduation Date supplied is in too far into the future. It is predictive rather than a certainty. (Example: A student with a graduation date of May four years into the future). The Graduation Date should only be supplied when the student has met all of the graduation requirements and will be receiving a diploma from your school district.</p> <p>To see the Graduation Date supplied for this student click the "SIF XML" link and find "GraduationDate."</p>
StudentPersonal	GraduationDate was not provided.	1	<p>The Projected Graduation Year supplied for this student indicates they will graduate during this Fiscal School Year. As a result, we are expecting to see the Graduation Date for this student. If the date of graduation is known, input that date in your local student information system. If the date is not yet know, this warning can remain temporarily while determining the graduation date and whether or not the student has met the graduation requirements. If the student will NOT be graduating during this Fiscal Year, change the Projected Graduation Year for this student.</p>
StudentPersonal	HispanicLatino was not provided.	4	<p>An indication of whether or not this student is of Hispanic or Latino origin has not been supplied. This can</p>

Object Type	Error Description	Validation Level	Friendly Description
			be resolved by indicating this in your local student information system.
StudentPersonal	Homeless indicator is invalid.	2	The indicator supplied for Homeless is not correct. The only valid code for Homeless is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Homeless.
StudentPersonal	Homeless indicator was not provided.	2	The Homeless indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Homeless.
StudentPersonal	IDEA and Section504 are invalid.	3	The data supplied for this student indicates the student is both IDEA (IEP) and Section 504. A student cannot be both IDEA and Section 504. To correct this, determine the appropriate indicator for the student and make the necessary changes in your local student information system to indicate IDEA and Section 504 as true or false for this student.
StudentPersonal	IDEA indicator is invalid.	3	The indicator supplied for IDEA (IEP) is not correct. The only valid code for IDEA is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is IDEA.
StudentPersonal	IDEA indicator was not provided.	3	The IDEA (IEP) indicator for this student has not been supplied. In your local student information system indicate whether or not this student is IDEA.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Immigrant Code is invalid.	3	<p>The Immigrant indicator for this student is invalid. The indicator can either be Yes or No. Below are the restrictions we have in place for each:</p> <p>Yes - If the Wave receives Yes indicating the student IS Immigrant, the system checks the State of Birth/Country Of Birth. If the Country Of Birth = US or the State of Birth = one of the 50 states, teh District of Columbia, or Puerto Rico, the Immigrant indicator is flagged as invalid because the student cannot be Immigrant and born in the US. The Wave also checks the Date of Birth. If the student is younger than 3 or older than 21, the Immigrant indicator is flagged as invalid.</p> <p>No - If the Wave receives No indicating the student IS NOT Immigrant, the system checks the Country of Birth/State of Birth. If the student was NOT born in one of the 50 states, the District of Columbia or Puerto Rico and the age of the student is 3, 4 or 5 and the grade level of the student is Pre-Kindergarten or Kindergarten, then Immigrant is flagged as invalid because a student born outside of the US is Immigrant for the first 3 years in public school and this student is not old enough to have been in a US school for longer than three years.</p> <p>No - If the Wave receives No indicating the student is NOT Immigrant, the system checks the Country of Birth/State of Birth. If the student was NOT born in one of the 50 states, the District of Columbia or Puerto Rico and the age of the student is 3 to 21 and the StudentSchoolEnrollment Entry Code indicates a code of</p>

Object Type	Error Description	Validation Level	Friendly Description
			1838, 1839 or 1840 all of which indicate "Original Entry into a United States School" then Immigrant is flagged as invalid because the enrollment indicates this is the first time the student enrolled in a US school and the student was born outside of the US qualifying them as Immigrant.
StudentPersonal	Immigrant indicator is invalid.	3	The indicator supplied for Immigrant is not correct. The only valid code for Immigrant is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Immigrant.
StudentPersonal	Immigrant indicator was not provided.	3	The Immigrant indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Immigrant.
StudentPersonal	Language_Code record was not provided.	2	No Language Code was received for this student. The Language Code indicates the language or languages spoken by the student. To correct, enter the language spoken by the student in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Language_Code was not provided.	2	The Language the student speaks was not provided. This element is required if the student is reported as English Language Learner/Limited English Proficient (ELL) = Yes. Please make sure the language the student speaks as their primary home language is reported in your local student information system.
StudentPersonal	Language_NAI_OtherCode record was not provided.	2	In your local student information system this student is identified as speaking a Native American Indian language, but the specific Native American Indian language code has not been supplied. In your local system, indicate the specific Native American Indian language spoken.
StudentPersonal	LastName is invalid.	4	<p>The Last Name entered for this student is invalid. This can be resolved by correcting the name in your local student information system.</p> <p>Reasons why the Last Name may be invalid:</p> <ol style="list-style-type: none"> 1. It only contains a single character. 2. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 3. It contains two names separated by more than one space. 4. It contains three of the same characters in a row (e.g. Matththew which contains the letter "t" three times) 5. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.")

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	LastName was not provided.	4	<p>The Last Name of this student was not provided. This can be resolved by entering the legal Last Name of the student in your local student information system.</p> <p>Note: Some systems have two locations for the name. One is for the Legal Name, the other is for the name the student goes by. Be sure the Legal Name section is filled out.</p>
StudentPersonal	MiddleName is invalid.	4	<p>The Middle Name supplied for this student is invalid.</p> <p>Reasons why the Middle Name may be invalid:</p> <ol style="list-style-type: none"> 1. It contains invalid punctuation such as a forward slash (/), parentheses (), or a comma (,). The only acceptable punctuation is a hyphen, and periods used at appropriate times. 2. It contains two names separated by more than one space. 3. It contains three of the same characters in a row (e.g. Matththew which contains the letter "t" three times) 4. It appears to contain a Suffix or Prefix (e.g. "Jr" or "Sr" or "Mr.") <p>To resolve, correct the middle name in your local student information system.</p>
StudentPersonal	Migrant indicator is invalid.	1	<p>The indicator supplied for Migrant is not correct. The only valid code for Migrant is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Migrant.</p>

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Migrant indicator was not provided.	1	The Migrant indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Migrant.
StudentPersonal	Name_Type was not provided.	1	The Name_Type is an indication of the type of name being sent such as (legal name, alias name, etc.). This code should be supplied by your student information system vendor to the Wave with any name that is provided. If you have an option to select the type of name in your system, indicate that for this record. If you do not have an option to indicate the type of name, you will need to contact your local student information system vendor to let them know the name type is not being supplied with this record.
StudentPersonal	NeglectedDelinquent indicator is invalid.	3	The indicator supplied for Neglected/Delinquent is not correct. The only valid code for Neglected/Delinquent is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Neglected/Delinquent.
StudentPersonal	NeglectedDelinquent indicator was not provided.	3	The Neglected/Delinquent indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Neglected/Delinquent.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	OnTimeGraduationYear is invalid.	1	<p>The On Time Graduation Year supplied for this student is not valid. Below are some of the reason why the On Time Graduation Year would be considered invalid:</p> <ol style="list-style-type: none"> 1. The year is too far into the future. 2. The year is too far into the past for the age of the student. <p>To correct, determine the on time graduation year for the student and enter that year into your local student information system.</p> <p>To view the On Time Graduation Year supplied, click the "SIF XML" link and find "OnTimeGraduationYear."</p>
StudentPersonal	OnTimeGraduationYear was not provided.	1	<p>The On Time Graduation Year was not supplied. This is the year the student would graduate if they graduate on time. This year should be established the first time student enters ninth grade and should not change after that. In your local student information system, provide the On Time Graduation Year for this student.</p>
StudentPersonal	ProjectedGraduationYear is invalid.	1	<p>The Projected Graduation Year supplied for this student is invalid. There are a number of reasons why this year is invalid:</p> <ol style="list-style-type: none"> 1. The year is in the past and the student is currently attending. The projected graduation year should be the currently projected graduation year. If the student has not graduated, the year cannot be historical. 2. The Projected Graduation Year is too far into the future. If the projected graduation year is greater than what would be considered normal for a student of that

Object Type	Error Description	Validation Level	Friendly Description
			<p>age to graduate (e.g. 50 years into the future), the warning is given.</p> <p>To correct, determine when the student is expected to graduate and enter that year into your local student information system.</p> <p>To view the Projected Graduation Year supplied, click the "SIF XML" link and find "ProjectedGraduationYear."</p>
StudentPersonal	ProjectedGraduationYear was not provided.	1	The Projected Graduation Year for this student has not been supplied. In your local student information system, input the year this student is projected to graduate.
StudentPersonal	Race_Code record was not provided.	4	The Race code or codes for this student have not been supplied. In your local student information system indicate the Race of the student.
StudentPersonal	Section504 indicator is invalid.	3	The indicator supplied for Section 504 is not correct. The only valid code for Section 504 is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Section 504.
StudentPersonal	Section504 indicator was not provided.	3	The Section 504 indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Section 504.
StudentPersonal	SIF_ExtendedElement AltEd is invalid.	3	"AltEd" describes the students involvement in Alternative Education Academies. This particular warning "AltEd is invalid." indicates we did not receive the proper code of "Yes" or "No" for this element. This would appear to be a Student Information System vendor related issue since this is a standard code for this element. Please work

Object Type	Error Description	Validation Level	Friendly Description
			with your student information system vendor to ensure this code is sent properly as either "Yes" or "No"
StudentPersonal	SIF_ExtendedElement AltEd was not provided.	2	The AltEd (Alternative Education) indicator for this student has not been supplied. In your local student information system indicate whether or not this student is in AltEd.
StudentPersonal	SIF_ExtendedElement FreeReduced is invalid.	3	<p>The FreeReduced indicator supplied for this student is invalid. There are two reasons why this may be true:</p> <ol style="list-style-type: none"> 1. The code provided by your system is "Reduced" or "None" ("None" indicates Full Pay), but our records have identified this student is Directly Certified for Free lunch. To resolve this, determine if the student should be on Free lunch and change their FreeReduced status to "Free" OR if the parent/guardian has refused Free lunch even though the student qualifies, indicate this student as Economic Disadvantage in your local student information system if they qualify for Free lunch, but the benefit of Free lunch has been refused. 2. The codes provided are not valid. The only valid codes are "Free", "Reduced", "None", "Provision1", "Provision2", "Provision3", "Provision4". If the code supplied does not match one of these codes, you will need to contact your student information system vendor to determine how to send the appropriate code. Note: This is extremely uncommon. The issue is almost always #1. <p>To view the FreeReduced indicator supplied for this</p>

Object Type	Error Description	Validation Level	Friendly Description
			student by your system, click the "SIF XML" link and find "FreeReduced"
StudentPersonal	SIF_ExtendedElement FreeReduced was not provided.	3	The FreeReduced indicator for this student has not been supplied. In your local student information system indicate whether or not this student is Free, Reduced or Full Pay.
StudentPersonal	SIF_ExtendedElement GiftedTalentedIdentified is invalid.	3	The "Gifted/Talented Identified" indicator supplied for this student is not a valid code. Either the code supplied does not match the list of codes as identified in the 2.X Wave Requirements document OR the code provided does not align with the GiftedTalented indicator. Example: If GiftedTalented = Yes, but the code supplied for GiftedTalentedIdentified is DNMCR (Does Not Meet Criteria for Gifted Talented) the codes do not align. The opposite would be true. If GiftedTalented = No, but the code supplied for GiftedTalentedIdentified identifies how they were identified such as MULTI (indicating the student is Gifted/Talented being identified through multi-criteria) the codes do not align.

Object Type	Error Description	Validation Level	Friendly Description
			<p>To view the GiftedTalented and GiftedTalentedIdentified indicators supplied by your local system, click the "SIF XML" link and find "GiftedTalented" and "GiftedTalentedIdentified."</p> <p>To view the appropriate codes for GiftedTalentedIdentified, refer to section 7 of the 2.X Wave Requirements document located under "Resources" and "Documents" on the Wave Web site.</p>
StudentPersonal	SIF_ExtendedElement GiftedTalentedIdentified was not provided.	3	The "Gifted/Talented Identified" indicator for this student has not been supplied. In your local student information system indicate how this student was identified as Gifted/Talented. This would either be through scoring in the top 3% on any national standardized test of intellectual ability or through multi-criteria. If this student is not identified as Gifted/Talented, this indicator needs to be supplied with a code of DNMCRC (Does Not Meet Criteria for Gifted/Talented).

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	SIF_ExtendedElement HomelessPrimaryNightTimeResidence is invalid.	2	<p>The indicator identifying the Primary Nighttime residence of the student when they were identified as Homeless is not a valid code. Either the code supplied does not match the appropriate list of codes as identified in the 2.X Wave Requirements document OR, the code provided does not align with the Homeless indicator. Example: If Homeless = Yes, but the codes supplied for the Primary Night Time Residence is NIH (Not Identified as Homeless) the codes do not align. The opposite would be true. If the Homeless = No, but the code supplied for Primary Night Time Residence indicates a location such as SHL (Sheltered) the codes do not align.</p> <p>To view the Homeless indicator and the Primary Night Time Residence supplied by your system, click the "SIF XML" link and look for "Homeless" and "HomelessPrimaryNightTimeResidence."</p> <p>To view the Valid list of codes, refer to section 7 of the 2.X Wave Requirements document located under "Resources" and "Documents" on the Wave Web site.</p>
StudentPersonal	SIF_ExtendedElement HomelessPrimaryNightTimeResidence was not provided.	2	<p>The indicator identifying the Primary Nighttime residence of the student when they were identified as Homeless was not provided. If the student has never been identified as Homeless, this indicator should be the code NIH (Not Identified as Homeless). If they were identified as Homeless, provide the appropriate code for where they were living when they were identified as Homeless.</p>

StudentPersonal	SIF_ExtendedElement IEPP01 was not provided.	2	The IEPP01 indicator, which indicates whether or not this student was at any point in a childcare program licensed pursuant to the tiered licensing system established by the Department of Human Services, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.
StudentPersonal	SIF_ExtendedElement IEPP02 is invalid.	2	IEPP02 describes the students involvement in the Sooner Start program operated by the State Department of Education. Did this student participate in Sooner Start at any point in their life. The proper code would be either a "Yes" or a "No" We are not receiving either of these codes. If you click the "View SIF XML" link and look toward the bottom of the XML message, you will see the code that is being sent. This would appear to be a vendor related issue since this is a standard code for this element. Please work with your student information system vendor to ensure this code is sent properly as either "Yes" or "No"
StudentPersonal	SIF_ExtendedElement IEPP02 was not provided.	2	The IEPP02 indicator, which indicates whether or not this student was at any point in the Sooner Start program operated by the State Department of Education, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.
StudentPersonal	SIF_ExtendedElement IEPP03 was not provided.	2	The IEPP03 indicator, which indicates whether or not this student was at any point in the Oklahoma Parents as Teachers program operated by the State Department of Education, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	SIF_ExtendedElement IEPP04 was not provided.	2	The IEPP04 indicator, which indicates whether or not this student was at any point in the Children First program operated by the State Department of Health, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.
StudentPersonal	SIF_ExtendedElement IEPP05 was not provided.	2	The IEPP05 indicator, which indicates whether or not this student was at any point in any child abuse prevention program operated by the State Department of Health, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.
StudentPersonal	SIF_ExtendedElement IEPP06 was not provided.	2	The IEPP06 indicator, which indicates whether or not this student was at any point in any federally funded Head Start program, was not provided. This student is in grades PK, KG or 01. This requires that the IEPP indicators be filled in as either Yes or No.
StudentPersonal	State of birth is invalid.	1	The State of Birth provided for this student is either not one of the valid State Codes or it is not two uppercase letters. To view the State of Birth, click the "SIF XML" link. To correct this, modify the Birth State in your local student information system for this student.
StudentPersonal	State of birth was not provided.	1	The State of Birth for this student was not provided. To correct this, provide a state of birth in your local student information system for this student. If the student was not born in the United States, you will need to modify the Country of Birth. The reason this warning is appearing is because the Countr of Birth being supplied is US and no state has been supplied with it.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	StateProvinceId does not match AssignedSTN.	3	The STN stored inside of your local system for this student does not match what we have in place for the same student. Please contact the OSF Help Desk and ask that the STN we have be republished to overwrite your local STN. If you have already contacted the Help Desk to have that completed and the warning still exists, your local system is not accepting the STN we are attempting to provide back to you. You will need to contact your student information system vendor for assistance to determine why the STN is not being written into your local system.
StudentPersonal	StateProvinceId is invalid.	3	The STN your system is providing for this student is not a valid STN.
StudentPersonal	StudentPersonal Language_NAI_OtherCode OtherCode is invalid.	2	For this student, you have indicated they speak a Native American Indian language, however the code your system has provided for the specific Native American Indian language they speak is not a valid code. This code must be two upper case letters and must be a valid code. To see the code sent, click the "SIF XML" link and find the Language_OtherCode. Refer to Section 7 of the 2.X Wave Requirements document for appropriate codes. This document can be found by clicking on the Documents link located under the Resources tab of the Wave Web site.
StudentPersonal	Suffix is invalid.	1	The Suffix supplied for this student is not a valid suffix. Expected values would be similar to (Jr, Jr., Sr., I, II, III, etc.) To view the value sent, click on the "SIF XML" link and find the "Suffix." To correct, modify the suffix in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
StudentPersonal	Title1 indicator is invalid.	2	The indicator supplied for Title1 is not correct. The only valid code for Title1 is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is Title1.
StudentPersonal	Title1 indicator was not provided.	2	The Title1 indicator for this student has not been supplied. In your local student information system indicate whether or not this student is in Title1 programs.
StudentPersonal	VocationalConcentrator indicator is invalid.	1	The indicator supplied for VocationalConcentrator is not correct. The only valid code for VocationalConcentrator is either "Yes" or "No." The value being sent is "Unknown." To correct this, indicate in your local student information system whether or not this student is VocationalConcentrator.
StudentPersonal	VocationalConcentrator indicator was not provided.	1	The VocationalConcentrator indicator for this student has not been supplied. In your local student information system indicate whether or not this student is a Vocational Concentrator.
StudentPersonal	Year of birth is invalid.	4	The Year of Birth supplied for this student is not valid. To view the Year provided, click the "SIF XML" link and find the "BirthDate." To resolve this issue, correct the student's Birth Date in your local student information system.

Object Type	Error Description	Validation Level	Friendly Description
StudentSchoolEnrollment	CalendarSummaryRefId was not provided.	2	<p>The CalendarSummaryRefId is a link between the Enrollment of this student and the Calendar the student is on. Most of the time, the student will be on the Calendar associated with the school and the school will only have one calendar. Some student information system vendors allow for a school to have more than one calendar (e.g. One for Alternative Education). All Enrollments should come with a CalendarSummaryRefId that links the Enrollment to the appropriate Calendar.</p> <p>To resolve, inform your student information system vendor that the CalendarSummaryRefId is not being supplied with the student. They will have to correct this issue.</p>
StudentSchoolEnrollment	EntryDate is out of range.	3	<p>The Entry Date supplied for one of the enrollments associated with this student is out of range. This means the Entry Date does not fall within the Fiscal year supplied in the enrollment. Example: If the SchoolYear is FY2013, the Entry Date must be between July 1, 2012 and June 30, 2013. If it is less than July 1, 2012 or greater than June 30, 2013 it does not fall within the appropriate year. The enrollment itself indicates the year.</p> <p>To view what was sent, click the "SIF XML" link and find "EntryDate" and "SchoolYear."</p> <p>To correct, enter a date that falls within the fiscal year for this enrollment.</p>
StudentSchoolEnrollment	EntryDate was not provided.	4	<p>The Student School Enrollment describes a students enrollment in a particular school. The date the student entered was not provided on this enrollment. Please</p>

StudentSchoolEnrollment	ExitDate is out of range.	3	<p>The Exit Date supplied for one of the enrollments associated with this student is out of range. This means the Exit Date does not fall within the Fiscal year supplied in the enrollment. Example: If the SchoolYear is FY2013, the Exit Date must be between July 1, 2012 and June 30, 2013. If it is less than July 1, 2012 or greater than June 30, 2013 it does not fall within the appropriate year. The enrollment itself indicates the year.</p> <p>To view what was sent, click the "SIF XML" link and find "ExitDate" and "SchoolYear."</p> <p>To correct, enter a date that falls within the fiscal year for this enrollment.</p>
StudentSchoolEnrollment	ExitType/OtherCode is invalid.	1	<p>The ExitType/OtherCode describes the exit of a graduating student in further detail or the exit at the end of the school year. Typically, this code will be NA (Not Applicable) for almost all students. The only exceptions would be if the exit is the result of the student graduating. At that point this code should reference the amount of time it took the student to graduate. Or the exit refers to end of the school year. Refer to Section 7.15 in the 2.x Wave Requirements document for the full list of codes and descriptions. Since this code is listed as invalid, it is likely you will need to contact your student information system vendor for assistance in correcting how this code is being sent.</p>

			student information system vendor for assistance in correcting how this code is being sent.
StudentSchoolEnrollment	FTPT Status was not provided.	3	The FTPT Status (Full Time Part Time Status) indicates whether or not a Pre-Kindergarten or a Kindergarten student is Full Day or Half Day for reporting purposes. For this student, the FTPT status has not been supplied. To correct, locate the place in your student information system where Full Day and Half Day is indicated and mark appropriately.
StudentSchoolEnrollment	GradeLevel_Code is invalid.	3	<p>A grade level code has been supplied for this student that is not valid. The only valid codes are: PK, KG, 01, 02, 03, 04, 05, 06, 07, 08, 09, 10, 11, 12). Commonly we receive a grade level code of UN for students who are 3 years old and enrolled. They appropriate Grade level for those students would be "PK" Students who are 3 years old, on and IEP, and enrolled are considered PK for reporting purposes.</p> <p>To view the Grade Level sent for this student, click the "SIF XML" link and find "GradeLevel Code." To correct, indicate the appropriate grade level in your local student information system.</p>
StudentSchoolEnrollment	GradeLevel_Code was not provided.	3	The Grade Level for this student has not been supplied. In your local student information system indicate the grade this student is in.

Object Type	Error Description	Validation Level	Friendly Description
StudentSchoolEnrollment	SchoolOfMembership Code is invalid.	1	<p>The School Of Membership code is the concatenation of the county, district, site code where this student's membership should be recorded for funding purposes. This warning indicates that the School of Membership being supplied has code that does not reference a valid accredited county/district/site code. This element is new and as such is not used in any reporting at this time. The warnings are displayed to help districts correct these issues before this element is used. In the future when the Wave begins to pre-populate the First Quarter Statistical and Annual Statistical Report, this element will be used to help identify where state aid will be supplied.</p> <p>How this element works: Almost all students are reported to the Wave associated with their accredited school. The school the student is enrolled in is the accredited school the student will be reported through. As such, this "School of Membership" code will be exactly the same as the school the student is enrolled in for most students. The exception occurs when a student is attending a school, but that school is not the one that will claim their membership and attendance. In that instance, the School of Membership Code would reference another school in the district or possibly another school in another district allowing the Wave to appropriately apply the membership and attendance to the other school. Here is an example of how this code may be utilized in the future:</p> <p>A special education student being served through an IEP service agreement.</p>

Object Type	Error Description	Validation Level	Friendly Description
			<p>District A is responsible for the Student and receives the membership and attendance state aid for this student. District B is the school that is educating the student. So the student is located inside of District B's student information system.</p> <p>It is completely acceptable for both District A and District B to report this student to the Wave through their local student information system as long as the EntryType/Other Code (Basis of Admission) codes are correct. In this instance District A would have a Basis of Admission code of R-Resident. District B would have a Basis of Admission code of IEP SA - IEP Service Agreement.</p> <p>But what happens if District A does not have the student recorded in their local student information system and only District B is reporting the student to the Wave. The Wave would see the Basis of Admission code of IEP SA and would know that the membership and attendance reported does not belong to District B, but would not know which district to apply that membership and attendance to. The School Of Membership code would provide that resource. District B would supply District A/School A in the School Of Membership Code. The Wave would apply that membership and attendance to District A providing the opportunity for them to review and accept that membership and attendance as accurate.</p>

Object Type	Error Description	Validation Level	Friendly Description

StudentSchoolEnrollment	SchoolYear is invalid.	1	SchoolYear is invalid.

Object Type	Error Description	Validation Level	Friendly Description
StudentSectionEnrollment	EntryDate is out of range.	1	This warning is because an entry date for the students enrollment in a particular course section falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this entry date to be out of the range of that normal year. There is another element supplied with the Student Section Enrollment that shows the School Year. When you receive this warning it is because the school year is the current school year, but the Entry Date falls out side of that fiscal year range for the school year supplied.
StudentSectionEnrollment	EntryDate was not provided.	1	We did not receive an Entry Date indicating the day the student entered this particular course section.
StudentSectionEnrollment	ExitDate before EntryDate.	1	According to the data received, the date the student exited this course section took place before the student entered the course section. This is not possible.
StudentSectionEnrollment	ExitDate is out of range.	1	This warning is because an exit date for the students enrollment in a particular course section falls outside of the normal fiscal year. The normal fiscal year runs from July 1 to June 30. The year supplied causes this exit date to be out of the range of that normal year. There is another element supplied with the Student Section Enrollment that shows the School Year.
