HUMAN TRAFFICKING

THURSDAY, JULY 15th, 2010

8:30 AM – 5:00 PM

Absentee Shawnee Tribal Community Center

1970 156th Ave. NE

Norman, OK

Human trafficking has been understood as a distant international problem that only affects the poorest countries of our world. Local law enforcement officers have previously received information about the immigration trafficking issues that occur here in the US and refer all suspected leads to ICE. In reality, human trafficking also includes US citizens and it is also happening right here in Oklahoma. Labor trafficking, sex trafficking, minors in prostitution and child porn are all now considered to be human trafficking cases, that are being prosecuted through federal United States Attorney's Office, state Attorney General's Office and local District Attorneys. The United States is now the #1 destination of child sex trafficking in the world. Oklahoma kids have been found all over the country in forced prostitution and sex trafficking. New reports from the National Center of Missing and Exploited Children estimates that 300,000 US children are added into the commercial sex industry every year. The FBI and ICAC Task Force is very concerned about the activity of on-line grooming of US minors by predators and traffickers occurring in every county of Oklahoma. This course is designed to provide the participant with an understanding of the crimes of human trafficking.

**8 HOURS CLEET CREDIT + INCLUDING 1 HOUR MENTAL HEALTH CREDIT
PRE-ENROLLMENT IS REQUIRED**
