POLYGRAPH EMAIL CONSENT

Dear Fellow Polygraph Examiners,

In an effort to improve the Boards ability to communicate with licensed polygraph examiners, we are soliciting an email address and/or cell phone numbers for each examiner.

This is strictly a voluntary option. It is up to each examiner if they wish to provide these additional ways to receive information from the Board. It is not our intent to release any of the information to the public, however, since we are a government body we fall under the open records act and may be compelled at some point to release it.

If you would like the Board to have this additional method to pass along information, please provide the address and/or phone number below return via USPS mail or email to following.
