Training Program Offers Specialized Career Path for Law Enforcement

by: Julie Cavin, NCBRT

The Oklahoma Office of Homeland Security, Oklahoma Council on Law Enforcement Education and Training (CLEET) and the National Center for Biomedical Research and Training (NCBRT), Academy of Counter-Terrorism, a member of the National Domestic Preparedness Consortium (NDPC), recently developed the Law Enforcement Terrorism Certification Program (LETCP) to address the need to have a career path that state and local jurisdictions could utilize to identify appropriate training for their law enforcement professionals with respect to high-consequence events, either natural or man-made. "With consistent focus on enhancing our state and jurisdictional homeland security, this program provides an avenue to do so in a directed approach for the officer and agency," says Steve Williams, NCBRT Operations and Plans Associate Director. The LETCP will augment the current credentialing system already implemented in the state of Oklahoma. In addition to obtaining the Law Enforcement Terrorism Certification, the training hours can be transferred to CLEET's Advanced Law Enforcement Certification program and eventually college credits towards a degree. "This training will provide additional tools for law enforcement officers in their mission of providing a safer and more secure environment for the citizens of Oklahoma," says Steve Emmons, CLEET Director. "It is only through these training partnerships that officers advance their knowledge and expertise to fight the threat of high-consequence events."

About the Law Enforcement Terrorism Certification Program (LETCP)

The LETCP offers three levels of certification: basic, intermediate and advanced. Each level of certification includes training required for all participants and offers various tracks within the program to address specific needs of the patrol officer and special response units. The curriculum includes both web-based and instructor led training, which includes mobile and residential training. Each of the courses offered in the training program have been either DHS-certified or are federal or state courses approved through DHS. Each course is also offered at no cost to the participant. The entire certification program takes anywhere from one to six years to complete, depending upon the participant's current level of education. The state of Oklahoma is preparing a multi-year training schedule to meet the anticipated needs of the required training. Most of the training is mobile and will be brought to the state. The residential training programs, which are highly technical and require special facilities to conduct, will provide the training at their facilities. In these cases, the training provider will provide travel, lodging and per diem for those attending.

The mission of the Council on Law Enforcement Education and Training (CLEET) is to enhance public safety by providing education and training which promotes professionalism and enhances competency within the ranks of Oklahoma law enforcement and to manage and regulate the licensing and training of private security. www.ok.gov/cleet.

About NCBRT and NDPC

The mission of the National Center for Biomedical Research and Training (NCBRT) is to help America prevent, prepare for, respond to and recover from acts of domestic and international terrorism, weapons of mass destruction and high-consequence events through teaching, training, technical assistance and research. More information about the NCBRT can be found at www.ncbrt.lsu.edu.

The NCBRT is part of the National Domestic Preparedness Consortium (NDPC), recognized by the Department of Homeland Security (DHS) as the principal vehicle through which the National Training and Education Division (NTED) identifies, develops, tests and delivers training to state, local and tribal emergency responders. Undue Influence

Undue influence occurs when people use their role and power to exploit the trust, dependency, and fear of others. Exploiters, whether family, acquaintances or strangers use this power to deceptively gain control over the decision making of their victim. Undue influence is most often used to commit financial exploitation, undue influence itself is not a crime, but rather a method used to commit a crime. The purpose of this Training is to explore the parallels between UI and domestic violence, stalking, and grooming so that law enforcement learn to use expertise they already have in domestic violence and sexual abuse cases to effectively identify and investigate financial exploitation where UI may be present .

Officers, deputies, and agents attending a CLEET Basic Academy will now be required to spend the last 30 minutes of each training day participating in various forms of light exercise and stretching.

Physical Training during the Academy has been designed by CLEET staff that are certified Law Enforcement Fitness Specialists and Master Fitness Instructors by the Cooper Institute.

Physical fitness exercises that students will be participating in are:

- Power walking/Light Jog (Equivalent to a 20 minute mile)
- Basic Jumping Jack, Body weight squats (Slow count of 3 seconds down / 3 seconds up)
- Walking lunges
- Bear crawls
- Planks and/or crunches
- Pushup

Other exercises that will be done may include various portions for the actual CC/DT block such as patterns of movement, step and drag drills, officer survival drills and much more.

The goal is to take this 30 minutes each day and:

- Help better prepare each cadet for the upcoming training in CC/DT
- Allow them to have a small amount of extra time in order to help increase their knowledge in officer safety techniques
- Bring those who are lacking in physical conditioning to a higher level of self awareness and better prepare them for the academy as a whole

Private Security

In order to better serve our private security applicants we would like to inform you of some problems we have identified that could delay the processing or the mailing of your license.

- When we receive your application we check in the money order first. On some of the money orders we have received we have found that they have not been filled out except for the amount. When this is encountered we must send the money back to the sender for completion.
- The next problem we encounter is on current address for the applicants. Each month we send out reminders that your license is set to expire soon. Over a five day period in September we received back forty renewals, one application packet and one license. It is important to remember that it is your responsibility to contact us within ten days of a new address as it is a requirement under OAC 390:35-5-13.
- The last item is not signing the application where needed and having the documents notarized.

CLEET will be hosting a Private Security class on October 12, 2012. The course will offer 4 hours of training on Interviewing Techniques, and 4 hours on Legal Update.

Here are the testing dates for Private Security: September 04, October 08, November 05, December 03. All of these tests will be held at CLEET. Classroom will be announced on the testing day
