GRACIE JIU-JITSU

The Legendary Royce Gracie is coming to Oklahoma! Don't miss this training opportunity. The Absentee Shawnee Tribal Police is hosting a Ground Fighting/Weapon Retention **Instructor Certification Course** personally taught by Royce Gracie.

In the wake of the Rodney King incident, the Los Angeles Police Department was forced to reevaluate their entire use of force policy and the use of force techniques taught to their officers. In short, a team of experts was empanelled to complete the study. The final outcome was a new Use of Force System that the Gracie family was instrumental in developing and implementing at LAPD.

The implementation of the new system allowed for a significant reduction in the number of Use of Force Incidents and Complaints filed at LAPD. According to LAPD's training staff, the reduction is because their officers are now more competent and confident in their ability to defend themselves.

It is with great excitement that we are offering the same defensive tactics training that LAPD has adopted as their own. Royce calls his system the G.R.A.C.I.E. System. It is a 40-hour Instructor course for accreditation through Gracie that will allow participants to return to their department and train the entire staff on these proven techniques.
