The **S.P.E.A.R.** (Spontaneous Protection Enabling Accelerated Response) **System™** Agency Instructor certification program is a scientifically researched & medically reviewed program designed to train trainers in the S.P.E.A.R. System's strategies and tactics to survive sudden resistance or an 'ambush' during close quarter contact.

The S.P.E.A.R. is a 'behaviorally' researched, close quarter personal defense method that utilizes the body's natural flinch response and converts them into efficient tactical movements. The S.P.E.A.R. System is entirely based on physiology; therefore it will not interfere with any current DT or combatives methods or training. The system actually serves as a conduit or bridge to the program and tactics the officer or operator is skilled in.

Topics covered during the program include:

Theory and Science of Startle Flinch Conversion

Counter-Ambush Theory and Science

Scenario Specific Replication Training

Physiology of Combat

Extreme Close Quarter Strengthening Drills

Combat Calisthenics

Close Quarter Counter-Ambush Tactics

Fear Management

Three-dimensional Counter- Ambush Tactics

Advanced Behavioral Concepts

Performance Enhancement Psychology

A-SAP MODEL

Hick's Law for Defensive Tactics & Combatives

Program Management tips

Non-Violent Postures™

Emotional Climate Training™

Expert Witness Level Components of the System...and much more

Who Should Attend: Police Officers, detectives, UC, SWAT, corrections, DT & combatives Instructors and anyone interested in learning Counter-Ambush Science, Psychology, and drills to ensure survivability of the most dangerous attacks against police officers.
