COUNTER AMBUSH INSTRUCTOR CERTIFICATION COURSE: $450 Per Person

This course is CLEET certified for 24 hours.

TOPIC: A 3-day train-the-trainer program designed to help the police serve, protect, and get home safe.

Law enforcement is under siege. Ambush attacks against the police have tripled since 2014, and are the leading cause of felonious death in the nation. In documented cases, officers have been gunned down while picking their kids up from school, eating in restaurants and during routine patrols.

The current mantra of *Getting off the X or keeping your head on a swivel* isn’t going to cut it. Our officers deserve a system that trains them to move in a way to protect them from attack – as they outmaneuver and neutralize the threat. That system must be simple and easy to understand. Above all, it must be effective. That system is here.

The *Contact to Counter-Ambush Instructor Course™* is a 3-day instructor certification program designed to equip officers with the tools and knowledge they need to instruct others in counter-ambush tactics.

Through lecture, recent case studies and live fire training drills, the course covers:

**Strategies and Principles**
- Elements and different types of ambushes
- Threat recognition and attack pre-cursors
- Beyond OODA Loop and color codes
- Case studies: officers who survived attacks, and those who did not
- Responding to near and far ambushes
- Single vs. multiple threats

**Training Methodology and Exercises**
- Individual movement techniques
- Counter-ambush tactics in teams of 2, 3 and 4
- Vehicle deployments
- Officer down and extraction drills
- Engaging static and mobile threats
- Close quarters scenarios
- AND MORE…

**INSTRUCTOR:** All instructors are former intelligence, special operations, and/or law enforcement professionals. Bios are located on the website.

**DATES AND LOCATION:** August 27-29, 2019; Edmond Police Firing Range, 7707 E. Danforth Road, Edmond, Oklahoma
