

NATIONAL CENTER FOR BIOMEDICAL RESEARCH AND TRAINING ACADEMY OF COUNTER-TERRORIST EDUCATION

LASER

(Law Enforcement Active Shooter Emergency Response)
In Direct Delivery

COURSE DESCRIPTION:

Terrorism involving active shooter attacks on population centers has become part of law enforcement officers' awareness; however, increased awareness of a problem does not ensure preparedness or appropriate response tactics.

This course addresses technical aspects of planning and implementing a rapid law enforcement deployment to an active shooter incident through classroom presentations, hands-on performance-based field training, and scenario-based practical exercises. - NCBRT

THIS COURSE INCLUDES:

- Use of AR Platform and Glock 17T pistol simunition training equipment
- Scenario based training
- Officer movement, hallway engagement, room entry, room clearing, medical and follow on instruction
- Single officer response training
- Introduction to breaching by training with a steel breaching door and specialized tools
- Emergency Lifesaving techniques including the use of tourniquets in scenario training
- Use of community members as role players
- 2-day course; 16 hours of CLEET credit

All students must have a FEMA SID (Student ID Number), which can be obtained or recovered from
