Internal investigations are essential to the efficient operation of any public safety forces agency. Investigations of this nature are crucial to our democratic system of checks and balances. The lack of clear understanding of the due process principles that govern the investigation, failing to conduct investigations properly, and not having well documented cases are the major reasons why investigators fail, cases are lost, and agencies are sued and discredited.

Command and supervisory personnel from the following agencies should attend:
All public safety forces divisions

Attendees are taught:
- The essential principles of Constitutional Due Process in an Investigation
- Avoiding civil torts and liabilities
- Practical approaches to I.A. investigations
- How to document the I.A. case

Students receive class outline, model forms, rules, and certificate of attendance. (Class size is limited, please register early)
