RECOGNITION OF COMMISSION/DISTRICT EMPLOYEES

Mike Thralls, Executive Director, stated that when the tornado hit Moore, Oklahoma on May 20, 2013 he offered the use of the Commission's watershed equipment if needed. Secretary Reese in turn relayed the message to Secretary of Transportation Gary Ridley. Secretary Ridley was skeptical at first as the Oklahoma Department of Transportation has its own large earth moving equipment. However, once operations began the utility of the Commission's equipment became apparent. Mr. Ridley expressed his pleasure in recognizing the people that operated the Commission's equipment and stated that without this assistance, the citizens of Moore and Oklahoma City would have had it much worse. Secretaries Reese and Ridley then personally recognized the following employees and presented them with a commendation: Watershed Technicians Dennis Boney (not in attendance), George Moore, and Johnny Pelley; Watershed Aides Rusty Adams, Trent Drennan, Yuel Farris, Sam Fox (not in attendance), Tony Harrison (not in attendance), Greg Lyons, and Chuck Pyka (not in attendance); and Conservation Programs Director Robert Toole.

RECOGNITION OF OGITS EMPLOYEES

Mr. Thralls stated that the Commission serves as Chair of the GIS Council and is home to the Office of Geographic Information, both of which are headed by Mike Sharp. Prior to the tornados Mr. Sharp had been meeting with the Department of Public Safety discussing how the GIS community could assist in disasters. Lt. Troy German, the DPS Incident Commander, Oklahoma-Incident Management Team, called on Mr. Sharp following the tornado and attended today to recognize the assistance provided by Mr. Sharp and Shellie Willoughby, GIS Specialist, for their work in assisting the Oklahoma Department of Public Safety with the Moore tornado efforts.

USDA-NATURAL RESOURCES CONSERVATION SERVICE

Mr. Jett moved this item up on the agenda as Gary O'Neill, State Conservationist, has another meeting to attend. Mr. O'Neill provided a written report which is attached to these minutes. These are five-year contracts covering 800,000 acres and will need to be completed by September 30.

Plans for the Conservation Reserve Program have to be completed by September as well. This is a big workload for the panhandle field offices.

Mr. O'Neill reported that the \$20 million funds for the Environmental Quality Incentive Program are in the final stages of being obligated. He reported on the Emergency Watershed Program stating that staff is wrapping up debris cleanup contracts from the May tornado damages.

Mr. O'Neill stated that budget decisions will be finalized this week and he should know the amount of funds that can be in the year's contributions agreement. He stated that they are offering grants to heavy workload districts again this year. Since the present amount is based on workload the grant amount will vary accordingly.

The district conservationist position in Altus is closed as is the position in Mangum. Mr. O'Neill stated the new DC in Cimarron County is Cambra Fields.

SERVICE LEVEL AGREEMENT WITH OMES

Mike Thralls, Executive Director, stated that as directed by the state legislature all agency information technology will be consolidated into the Office of Management and Enterprise Services. The Commission has completed its consolidation and OMES is servicing the agency's IT. As a result an agreement must be signed for FY2014 outlining those services and costs. He introduced Dustin Crossfield, OMES IT Consolidation Manger. Mr. Crossfield explained the process of agency consolidation noting that it has been completed for the Commission and issues have been resolved. He commended the Commission staff for the smooth transition.

Mr. Jett questioned the cost to the agency and Mr. Thralls stated it is around \$5000 per month. Mr. Sharp stated that now that consolidation is complete and most issues have been resolved it will be beneficial to the agency to have OMES managing its IT. He did note that the Commission will continue providing IT service to the districts.

Blue Thumb ~ Water Pollution Education Program

Water Quality Division ~ Oklahoma Conservation Commission

Report for: Cheryl Cheadle; Jeri Fleming; Kevin Gustavson; Candice Miller, and Kim Shaw.

Fish Collection Field Work

Each summer, the primary Blue Thumb effort is to work with volunteers to complete fish collections on streams. Streams receive a collection based on which ecoregion they are in. Most 2013 collections have been done in the Ozark Highlands, although some new sites, or sites that missed their collection for one reason or another previously, are being done. Fish collections for this summer include:

Summer 2013 Fish Collections

Date	Site	County
06.11.2013	Tahlequah Town Branch: Basin St.	Cherokee
06.12.2013	Parkhill Branch: Parkhill Rd.	Cherokee

07.30.2013	Twin Hills Creek Tributary	Tulsa

Blue Thumb also continues to work with volunteers to complete benthic macroinvertebrate collections and field quality assurance sessions with volunteers. This summer is an especially exciting summer in that Oklahoma Conservation Commission water quality specialists are helping to make these collections and offer the quality assurance sessions to volunteers. This has the dual benefit of allowing:

- volunteers to learn about field activities from new hard-working OCC staff and
- Blue Thumb staff members to devote more time to maintaining the program and moving into new areas of the state.

The Fish Collections

These are only a few of the streams that have received a fish collection and habitat assessment this summer. These efforts pretty much take the full day, and they are a mix of hard work, learning, and fun.

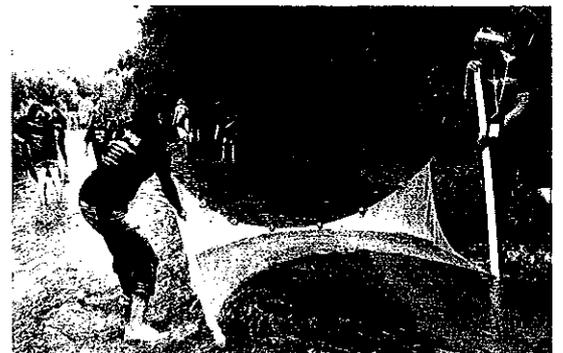

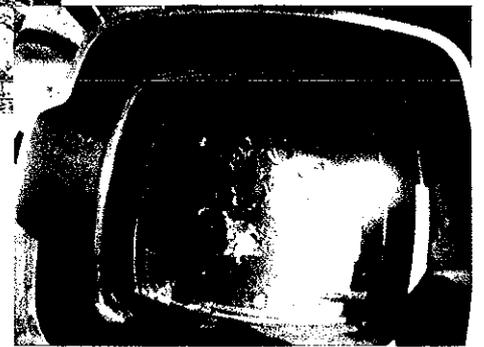

Jeri Fleming works with International Students from China as a guest presenter for Oklahoma State University at Lake McMurry in Stillwater. The kids had a great time actually getting wet and learning about pollution prevention.

OSU Tulsa students from Kevin Gustavson's "Stream Assessment" class learn about water quality monitoring at Crow Creek in Tulsa County.

Oklahoma Society of Professional Engineers

Chris Stoner, State Conservation Engineer, and Larry Caldwell, OCC Watershed Specialist, spoke at the annual meeting of Oklahoma Society of Professional Engineers on June 21, 2013. Over 70 participants listened to these two Professional Engineers discuss the status, current work, and challenges facing aging watershed dams. Unlike many similar presentations of which participants are in tune with the watershed program, this group was comprised of engineers from all disciplines, many of whom were completely unaware of the flood control dams protecting their homes, highways, cities, or towns. This was a great outreach event to tell our story to others in the industry and others impacted by the watershed program. The subject was well received, earning the highest rating of all sessions for the two day event.

Sallisaw Creek Site 26 Final Site Showing

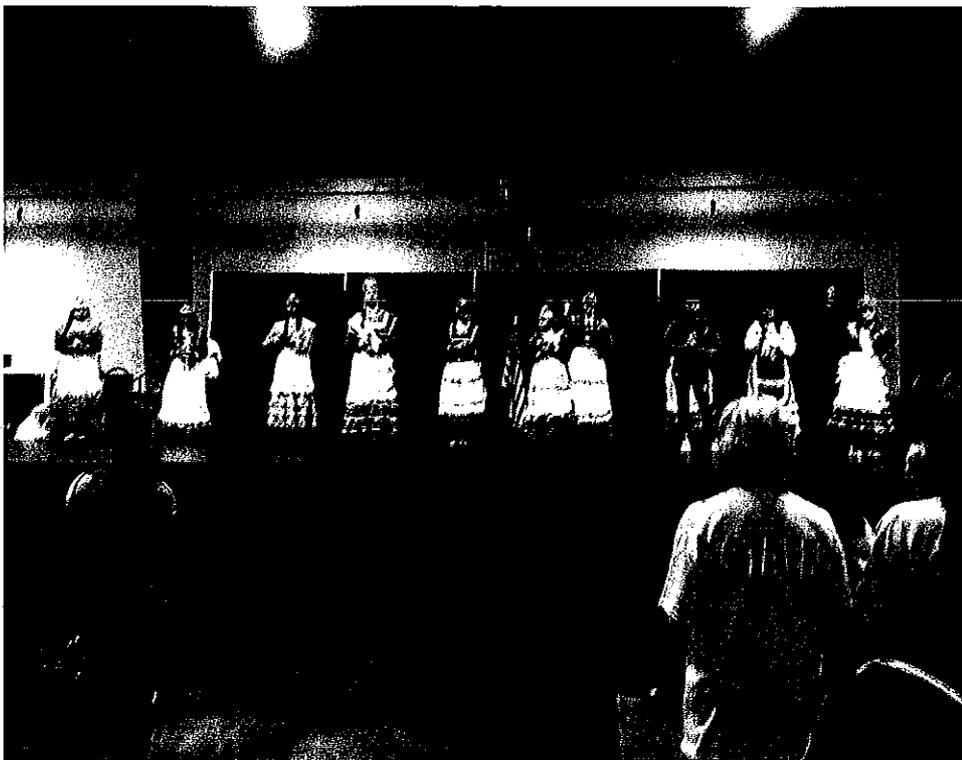

The final inspection for the rehabilitation of Sallisaw Creek Site 26 was completed on June 25, 2013. This site is located in Adair County near the small community of Greasy. Representatives from the Oklahoma Conservation Commission, Oklahoma Department of Central Services, Adair County Conservation District, Wynn Construction (Contractor), the Cherokee Nation, the NRCS State Office, Stillwater Watershed Office, and Stillwell Field Service Center were present. Some of the main features of the site consisted of the installation of roller compacted concrete on the inside spillway dikes and the floor of the left spillway, a new principal spillway inlet tower and conduit, and a concrete impact basin. One of the more unique features of the project was the installation of a parapet wall across the top of embankment, which was the first to be constructed on a NRCS watershed project in Oklahoma. The parapet wall was constructed to raise the top of embankment to the designed elevation in lieu of conventional earthfill which was not available at this location. The wall is 772' long and 15" wide. The total height of the wall is 7'9", of which only 2'8" are above ground.

NRCS and OTCAC Participate at the 2013 Choctaw Nation Youth Summit

The Choctaw Nation Event Center in Durant, OK, was the site for the “Xtreme Leadership” Youth Summit that was held on June 26, 2013. This event was sponsored by the Choctaw Nation, Big Five Community Services, Southern Workforce Board, KEDDO (Kiamichi Economic Development District of Oklahoma), Southeastern Workforce Board, Chickasaw Nation, Muscogee (Creek) Nation, Citizen Pottawatomini Nation, OK Department of Career Technology and Education, Kiamichi Technology Center, Governor’s State Youth Council, Department of Rehabilitation Services, the OK Department of Commerce, the Oklahoma Tribal Conservation Advisory Council and the Natural Resources Conservation Service. Youth and young adults from all over the state of Oklahoma flock to this annual event that began in 2007 and is continuing to grow. There were approximately 1,680 people who attended this event, 1,557 of them being youth.

Dr. Carol Crouch, NRCS National American Indian /Alaskan Native Special Emphasis program manager and District Conservationist; Derek Kelso, Soil Conservationist; Matthew Irby, Soil Conservation Technician and Debbie Brewster, Bryan County Conservation District secretary attended the Youth Summit and provided the NRCS American Indian Heritage poster to attendees. The event was designed to motivate and inspire youth and young adults ages 14 to 21 about their education and career opportunities that are a possibility in their future. Murray County Conservation District and NRCS host Congressman Tom Cole on Watershed Tour

The Murray County Conservation District and NRCS hosted Fourth District Congressman Tom Cole on a watershed tour on July 1, 2013. The Congressman visited two upstream flood control structures in the Rock Creek Watershed. Both of the dams are categorized as high hazard structures. NRCS is in the initial planning process to modify the structures to meet current dam safety criteria.

John Cagle, Chair of the board, represented the district along with Tammy Curry, District Secretary and Charlie Pyka, Watershed Aide. The tour provided the Congressman an understanding of the challenges facing conservation districts with high hazard dams and the continuing need to appropriate funds for the NRCS watershed rehabilitation program. Bryan County – Durant Field Service Center

The **Bryan County Annual Farm & Ranch Outreach Tour** was held on June 25, 2013. This year's tour featured farms in the southern portion of Bryan County. The first stop on the tour was at David McDonald's Rafter L Limousine Ranch at Achille. Brian Freking, OSU Area Livestock Specialist, led a discussion on utilizing EPD's for bull selection. The group then travelled to the Roger West Dairy, Liberty, OK, where Mr. & Mrs. West demonstrated how they use in-line wrapping to create haylage for their herd. The third location was at the Ritchey Farm, where Farm Manager Jeff Hesser discussed how they started and are managing their Pecan Orchard. Then Jeff talked about the farm's silage production. Throughout the tour participants enjoyed cold drinks provided by the Oklahoma Tribal Conservation Advisory Council and the Bryan Conservation District.

The 51 tour attendees then met in the cool Albany Community Center where a brisket dinner was provided by the new owners of the Durant Stockyards, Jeff & Rebecca Hazaleus. Following the meal representatives from the tour sponsors were invited to make presentations. The event was sponsored by the Bryan County Cattle Producers Association in conjunction with OSU Extension Service, USDA Farm Service Agency, USDA Natural Resources Conservation Service, Bryan Co. Conservation District, Oklahoma Tribal Conservation Advisory Council and the Durant Stockyards. During the NRCS presentation, District Conservationist, Valerie Hannon, enlightened participants about the EQIP programs, as well as benefits for Historically Underserved participants.

Coal County - Coalgate Field Service Center

The final inspection on the **Coalgate City Lake Rehabilitation Project (Caney Coon 2M)** was held July 10. Construction began in October 2011, and the cost has been over \$4.6 million. A new inlet, principal spillway, and roller compacted concrete emergency spillway were installed due to the structure being reclassified as high hazard. Over 240,000 pounds of steel were used in this project. This site provides drinking water to over 80% of the people in Coal County. The Coalgate Field Office would like to say a big "Thank You" to the Pauls Valley Watershed Staff for the completion of this project.
