

On September 17, 2020, a subcommittee of the CJIS Task Force updated the goals within the Criminal Information Sharing Improvement Plan. The suggested specific goals set by the CJIS Task Force for the Criminal Information Sharing Improvement Plan are as follows:

Goals	High Priority	Moderate Priority	Low Priority
1. Improve arrest record automation and fingerprint data submissions, including the collection of missing disposition records and ensuring that Sheriff's departments throughout the state have a Livescan which electronically reports to the repository.	X		
2. Establish a statewide system for municipal warrants		X	
3. Continue to identify and implement data exchanges between criminal and justice agencies	X		
4. Improve disposition records at the repository by automating the reporting of Oklahoma County criminal history data.	X		
5. Improve processes for statewide use of NCIC Protective Order and Wanted Person files by Sheriff's Offices and Police Departments		X	
6. Research and analyze Cite & Release practices in order to develop a process for getting those offenses included in Criminal History files		X
